PART I – FINANCIAL INFORMATION

1. FINANCIAL STATEMENTS

Consolidated Statements of Financial Position
Consolidated Statements of Comprehensive Income
Consolidated Statements of Changes in Equity
Consolidated Statements of Cash Flows
Notes to Interim Consolidated Financial Statements
Schedule of Financial Soundness Indicators
Aging Schedule of Trade and Other Receivables Under Current Assets

The interim consolidated financial statements (ICFS) have been prepared in accordance with the Philippine Financial Reporting Standards (PFRS) and Philippine Accounting Standard 34, *Interim Financial Reporting*. As such, they do not include all of the information and disclosures required for full annual consolidated financial statements, and thus should be read in conjunction with the audited consolidated financial statements of the Group as at and for the year ended December 31, 2012 (ACFS). The accounting policies and methods used in the ICFS are consistent with those applied in ACFS, except for changes brought about by the adoption of new standards that become effective on January 1, 2013.

The consolidated financial statements have been prepared using the measurement bases specified by PFRS for each type of asset, liability, income and expense. These consolidated financial statements have been prepared on the historical cost basis, except for the measurement of certain financial assets and liabilities. Accounting estimates, assumptions and judgments are used in preparing these statements. Although these estimates and assumptions are based on management's best knowledge of current events and actions, historical experience, and evaluation of relevant facts and circumstances, including expectations of future events that are believed to be reasonable under the circumstances, actual results may ultimately differ from such estimates.

For a more thorough understanding of the accounting policies used in the preparation of the financial statements, reference should be made to the notes to the latest ACFS filed under SEC 17-A, a copy of which may be found in the Company's website [allianceglobalinc.com] and PSE website [pse.com.ph].

The interim consolidated financial statements comprise the financial statements of the Company and its subsidiaries, after elimination of material intercompany transactions.

In the normal course of business, there were intercompany transactions among the Company and its subsidiaries and these intercompany balances and transactions, including income, expenses, dividends and unrealized profits from material intercompany transactions that are recognized in assets are eliminated. In addition, shares of stock of the Company acquired by any of these subsidiaries are recognized as treasury shares and these are presented at cost as a deduction in the consolidated statements of changes in equity. Any changes in their market values as recognized separately by the subsidiaries are likewise eliminated in full. Gain or loss on the sale of these treasury shares is presented as addition to or deduction from additional paid-in capital (APIC).

The financial statements of subsidiaries are prepared for the same accounting period as the Company's, using consistent accounting policies. Adjustments are made to bring into line any dissimilar accounting policies that may exist.

The interim consolidated financial statements are presented in Philippine pesos, the Group's functional and presentation currency, and all values represent absolute amounts except when otherwise indicated.

During the interim period, there were no other known items –such as trends, demands, commitments, events or uncertainties- affecting assets, liabilities, equity, sales, revenues, net income or cash flows that were unusual because of their nature, size, or incidents, and that will result in or that are reasonably likely to result in the liquidity increasing or decreasing in any material way, or that would have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations.

Business Segments

The Group classifies its businesses into the following segments, each managed separately and each representing a strategic business unit that offers different products and serves different markets. Entities not classifiable under these main business segments are presented as part of corporate and investments.

- Food and beverage segment(F&B) includes the manufacture and distribution of distilled spirits (under the labels of Emperador Brandy, Generoso Brandy and The Bar flavored alcoholic beverage), glass containers and potato snack products (under Pik-Nik label). It also includes the distribution of consumer products under international labels. Emperador Distillers Inc. (EDI) front runs this segment.
- Real estate segment (RE) involves the investment in and development of real estate, lease of properties, hotel development and operations, and integrated tourism resorts development. The real estate portfolio encompasses a wide array of products that cater to niche markets ranging from luxury, middle-income and affordable home sectors to vacation homes. RE segment is led by publicly-listed Megaworld Corporation (Megaworld or MEG) with its live-work-play-learn-shop community townships and high-end condominiums and commercial properties. Empire East and Suntrust are the middle-income and affordable housing brands. More recently, Empire East Elite brand of luxurious resort development is added. MEG operates two Richmonde hotels, one in Ortigas Center and the other in Eastwood City.

RE segment also includes integrated tourism business under Global-Estate Resorts, Inc. (GERI), AGI's integrated tourism vehicle outside Metro Manila. GERI has rolled out the first and only tourism estate in Boracay Island in 2011 and has recently started on its vineyard resort project in Laurel, Batangas near Metro Tagaytay. It also launched Savoy Hotel in Boracay in April last year.

- Tourism – Entertainment and Gaming segment (TEG) is represented by Travellers International Hotel Group, Inc. (Travellers). Travellers operates Resorts World Manila (RWM) which currently houses Maxims Hotel (the Philippines' first luxury all-suite hotel), Marriott Hotel Manila, Remington Hotel and the Newport Performing Arts Theater. RWM combines hospitality, entertainment, leisure, shopping and gaming in a one-stop non-stop destination.
- Quick service restaurant business (QSR) operates under the McDonald's brand, in accordance with a master franchise agreement with McDonald's USA. Golden Arches Development Corporation represents this segment.

Please refer to Note 1 to the Interim Consolidated Financial Statements and ACFS for a comprehensive list of subsidiaries, associates and joint venture.

- Revenue growth – measures the percentage change in sales/revenues over a designated period of time. Performance is measured both in terms of amount and volume, where applicable.
- Net profit growth – measures the percentage change in net profit over a designated period of time
- Net profit rate– computed as percentage of net profit to revenues - measures the operating efficiency and success of maintaining satisfactory control of costs
- Return on investment [or capital employed] – the ratio of net profit to total assets - measures the degree of efficiency in the use of resources to generate net income
- Current ratio – computed as current assets divided by current liabilities – measures the ability of the business to meet its current obligations. To measure immediate liquidity, quick assets [cash, marketable securities, accounts receivables] is divided by current liabilities.

Amounts are in million pesos; Numbers may not add up due to rounding. ¹TEG's interest includes unrealized loss on rate swap. Revenues exclude intersegment sales and include share in net profits of associates and joint ventures.

AGI carried on its upward growth trajectory with net profit rising 34% to P11.3 billion from P8.4 billion a year ago. The portion attributable to owners of the parent company grew by 44% to P8.3 billion from P5.7 billion a year ago, as propelled by the strong results across all segments. This first half's results surpassed the already strong performance a year ago as all business segments posted double-digit growth in revenues and net profit.

The profit growth for the first half is driven by EDI, with its net profit soaring 35% year-on-year on the back of its sustained sales and improved gross margin, MEG, with its net profit growing 13% due to higher sales and rental income, and Travellers, with its net profit up by 20% due to a big leap in its hotel and gaming revenues. GADC's net profit got a 47% boost from new restaurants' sales.

The revenues and net profit of the selected subsidiaries were as follows:

Revenues expanded by 19% to P61.1 billion from P51.2 billion a year ago, primarily due to better performance across all segments, particularly in gaming revenues, sale of goods, real estate sales and sales from company-operated quick-service restaurants.

RE revenues, which increased by 12%, come from sales of lots, condominium and office units; rentals and golf course maintenance contracts; rental/lease of office and commercial spaces; hotel operations; and finance and other income. RE portfolio targets a wide spectrum through projects of Megaworld, Empire East, Suntrust and GERI. The Group's registered sales mostly came from [MEG]Uptown Ritz Residences (Fort Bonifacio), Viceroy Residences Towers and The Venice Luxury Residences (McKinley Hill), Greenbelt Hamilton and Three Central (Makati), 101 Newport Boulevard, 8 Newtown Residences (Cebu), Belmont and Savoy Hotels; [GERI]lots in Newcoast Shophouse District, Newcoast Boutique Hotel and Newcoast Village (Boracay), Sta. Barbara Heights (Ilo-Ilo City), and Twin Lakes Domaine Le Jardine (Batangas); [ELI]San Lorenzo Place, Pioneer Woodlands, Little Baguio Terraces, The Sonoma, The Cambridge Village, California Gardens Square, and Laguna Bel-Air projects. These raised real estate sales by 13%. Rental income grew by 21% from the completion of additional property for its BPO and retail/commercial portfolio. Hotel operations expanded in Boracay.

TEG revenues, which escalated by 24%, come from tourism integrated business in RWM which include gaming, hotel, food and beverage, theater, cinema and retail shopping mall operations and commercial office space rentals. Its gaming and hotel revenues expanded 28% and 23%, respectively, year-on-year, primarily due to the increased gaming capacity and continued increase in property visitation. Property visitation expanded by 12%. The successful series of events coinciding with Chinese New Year and Valentine's Day, including shows, concerts and other activities such as Mass raffle draws and VIP tournaments staged this year were all well attended. There is an increased occupancy rate and average daily room rate for the hotels. Remington Hotel, which is fully operational this year, has 52% occupancy while Marriott and Maxims have 84% and 79%, respectively.

F&B revenues, which rose by 20%, come mainly from sale of consumer goods (brandy and potato snacks). Emperador Brandy maintained its already very strong position from a year ago. More areas in Luzon, Visayas and Mindanao were penetrated. A Spanish edition brandy, labeled Emperador De Luxe, was launched in March 2013. This is a premium brand produced and bottled in Spain and distinctly suitable to the Filipino taste. There is also a sales

price increase at the start of the year to cut the impact of the revised excise law, which took effect on January 1, 2013 that put a higher tax on alcohol products.

Pik-Nik sales, on the other hand, experienced a 6% increase in volume from a year ago. Its USA sales remained flat while international sales are up by 20% from new markets.

QSR revenues, which grew by 13%, come from sales from company-operated restaurants and revenues collected from franchisees (rental and management fees). Both sources grew by about 14% and 19% year-on-year, respectively. The growth is attributed to the 39 new restaurants opened from a year ago, more restaurants offering business extensions (32 for 24/7 service, 63 dessert centers, 27 8McDo), the re-imaging of 35 existing restaurants, the introduction of new products (McSpicy chicken burger and flavored floats) and the aggressive advertising/promotional campaigns to support Breakfast, Premium Desserts, McDelivery, McSaver Meals and McSavers (sundae, floats, fries and Burger McDo). "Ang Pao" couponing continued until March 15 and "Eyes on your Fries" is continuing in first quarter. In second quarter, promotions focused on McFloat medley and Iron Man power meals. There are 377 restaurants nationwide as of end-June, 204 of which are company-owned. Seventeen company-owned restaurants were opened from a year ago and at the same period 21 were sub-franchised and one under joint venture. A total of five restaurants were closed in the same period of time. The 39 newly-opened restaurants contributed 9% to total system sales.

Finance and other income come from interest income on cash and securities, dividends, foreign exchange and fair value gains on mark-to-market investments. It went up by about 27% due to foreign exchange gains during the period, particularly in the second quarter.

Share in net profits of associates and joint venture decreased slightly due to renovation works at existing quick-service restaurants during the period.

QSR	6,996	6,252	11.9%
Others	926	755	22.5%
TOTAL	47,236	40,474	16.7%

Costs and expenses went up by 17% to P47.2 billion from P40.5 billion as a result of robust sales and service rendition performance, costs of which rose by 15% and 19%, respectively. The higher sales also translated into higher commissions, advertising and promotions, and royalty, salaries and depreciation.

The top three cost components in the manufacture of alcoholic drinks were raw materials, depreciation and amortization, and factory supplies representing about 95% of cost. Contributing to the increase in cost of raw materials is the higher excise tax on alcohol

products brought about by the reformed Sin Tax law as implemented at the start of this year. Depreciation doubled from a year ago because of additional facilities acquired (annex plant in May 2012 and distillery plant in February this year).

In the QSR, the top three cost components were food and paper, rental and utilities and personnel costs, representing about 85% of cost. Crew labor went up due to opening of new business extensions and daypart segments to cater to higher guest count. Depreciation also increased from reimaging of restaurants and replacement of restaurant assets (which resulted in incremental sales).

Cost of gaming includes promotional allowances, license fees and other casino-related expenses and depreciation. The first two represent about 72-73% of gaming cost. Cost of hotel operations increased by 18% due to additional employees on expanded business operations.

RWM, GADC and MEG increased expenditures on advertisements and promotions to drumbeat particular products and offerings. RWM paid commissions and rebates to gaming promoters and VIP patrons.

The rise in general and administrative expenses is attributed mainly to expansion in business operations.

Finance cost and other charges, which represented 4% of total costs and expenses, went up by 4% due to Meg's costs in its bond issuance.

Tax expense totaled P2.6 billion from P2.3 billion a year ago as a result of increased sales and profits. The bulk came from the F&B and RE segments.

Earnings before interest, taxes, depreciation and amortizations (EBITDA), computed as net profit before share in net profits of associates and joint ventures, income taxes, interest expense, depreciation, amortizations and impairment provisions, amounted to P18.1 billion as compared to P14.3 billion a year ago, or 26% improvement year-on-year.

Financial Condition

Consolidated total assets amounted to P301 billion at end of the interim period from P273 billion at beginning of year (as restated).

Cash and cash equivalents swelled by P10.5 billion or 15% to P78.8 billion at end of the interim period from P68.3 billion at the beginning, primarily due to MEG's \$250 million 10-year international bond issue in April, which carries a coupon of 4.25%. Cash flows from operating, financing and investing activities during the period were presented in the interim consolidated statements of cash flows.

Current trade and other receivables went up by P4.2 billion or 18% primarily due higher sales during the period and the additional advances paid by Travellers to its suppliers to serve as mobilization fund in the ongoing expansion/construction works at RWM. Noncurrent trade and other receivables expanded by P3.6 billion or 15% due to higher real estate reservations/sales booked during the period.

Inventories built up by P3.5 billion or 9% due to additional real estate lots, condominium units and resort shares completed and put up for sale. Additional inventories were also stored at the alcohol distillery plant. New casino operating supplies such as gaming cards, dice and seals were also purchased during the period.

Financial assets at fair value through profit or loss increased by P2.5 billion or 38% due to additional investments in marketable debt securities and translation increment.

Available-for-sale financial assets decreased by P0.7 billion or about 14% due mainly to disposal of financial assets by Meg. Likewise, mark-to-market values shranked slightly and such were reported under Finance cost and other charges.

Property, plant and equipment increased by P2.7 billion or 8% primarily due to acquisitions/construction at EDI and Travellers. Emperador acquired a distillery plant for its alcohol requirements. Construction is in progress on Travellers' casino and hotel sites and entertainment and commercial center as part of its investment commitment with PAGCOR. Gaming machines and equipment, furniture and fixtures and building improvements had been added also during the period.

Property development costs increased by P1.3 billion or 12% due to new real estate development projects.

Other current assets went up by P0.2 billion or 6% and other non-current assets by P0.3 billion or 15% due to increase in Meg's guarantee deposits.

Deferred tax assets decreased by P0.3 billion or 33% while deferred tax liabilities increased by P0.3 billion or 5%, as a result of changes in taxable temporary differences at GERI and Megaworld.

Current interest-bearing loans went up by P0.7 billion or 16% while non-current portion went down by P1.6 billion or 12% due to settlement of short-term margin loans and principal amortizations.

Bonds payable rose by P11.9 billion or 26% from the MEG's \$250 million bond issue in April and translation difference in AGI Cayman bond and Travellers' bond.

Trade and other payables increased by P2.7 billion or 12% due to substantial increase in Travellers payables which include unredeemed gaming chips, unredeemed gaming points and license fees which are indicative of strong gaming performance.

Income tax payable went up by P98 million or 17% due to higher taxes payable by EDI as a result of its flourishing performance.

Advances from related parties dropped by P161 million or about 19% due to reduction at MEG level.

Retirement benefit obligations increased by P63 million or 5% from additional liabilities recorded by MEG, Travellers and GADC to their plans.

Other current liabilities ballooned by P2.6 billion or 15% due to Travellers' dividend payable to minority stockholders. Also included here are RE customers' deposits which increased due to additional reservations during the period.

Other non-current liabilities accelerated by P2.6 billion or 19% from reserve for property development and deferred income on real estate sales. The reserve pertains to cost to complete the development of various projects while the deferred income represents unearned revenue.

The changes in equity components are presented in detail in the consolidated statements of changes in equity.

Treasury shares are AGI shares held by subsidiaries but not cancelled and are carried at cost in the consolidated statements of changes in equity. The fair value gains (losses) on the shares held by subsidiaries were eliminated in full and were not recognized in the consolidated financial statements. Any gain on subsequent reissuance/sale of these shares is considered as additional paid-in capital (APIC) and there is P1.96 billion of this type of gain

as of end of the interim period. AGI, the parent company, does not hold any of its own shares as of end of the interim period.

Accumulated translation adjustments represent the translation adjustments resulting from the conversion of foreign currency denominated financial statements of certain subsidiaries into the Philippine pesos, the Group's presentation currency.

Revaluation reserves represent cumulative changes in unrealized gain or loss in fair value of available-for-sale financial assets and the actuarial loss on retirement plans (as restated opening balance).

Share options represent the benefits expense on options granted to qualified employees under the plans of AGI, GERI and MEG that have not yet been exercised. The expense during the period represent that of MEG and GERI.

The consolidated balance sheets showed strong liquidity. Current assets as of end and beginning period totaled P174.9 billion and P152.7 billion, respectively, while current liabilities for the same periods remained low at P51.7 billion and P45.5 billion, respectively. Current ratios were at 3.38:1 at the end and 3.35:1 at the start of the current period. Liabilities-to-equity ratios remained low at 0.97:1 and 0.90:1 at end and beginning of the period, respectively, while interest-bearing-debt-to-equity ratios were 0.49:1 and 0.45:1 at the end and beginning of the period.

The Group has a buoyant net cash position.

Prospects for the future

AGI remains concentrated on its business programs. Management will continue to adopt prudent measures to ensure financial sustainability and look for new opportunities that will enhance the overall profitability of the group while maintaining the established markets.

In 2013, all the business segments are expected to grow revenues and profits in line with targets.

Others

In April 2013, the Bureau of Internal Revenue (BIR) issued Revenue Memorandum Circular No. 33-013 which clarified that PAGCOR contractees and licensees (such as Travellers) are not exempt from corporate income tax. This new BIR issuance is being studied, in consultation with PAGCOR. PAGCOR has assured the licensees that it will honor and abide by the terms of the Provisional License/s, specifically insofar as the License Fees are intended and contemplated in lieu of all taxes. The Group is optimistic that the government and the industry will come out with a common understanding supportive of the growth and success of the business, confident that fair and equitable resolution will be in keeping with the true spirit and intent of the provisional license, and trust that PAGCOR will safeguard the economic terms of agreement and the best interest of the industry.

On May 9 and 10, 2013, Travellers filed a registration statement with PSE and SEC, respectively, for a potential initial public offering (IPO). In July, Travellers has successfully obtained regulatory approvals for its planned IPO. In the light of the extreme volatility being experienced in the emerging markets and the Philippines, Travellers decided to postpone its IPO until market conditions improve.

There were no other known material events subsequent to the end of the interim period that would have a material impact in the interim period.

There are no other known trends or demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in the Company's liquidity increasing or decreasing in any material way. The Company does not have nor anticipate having any cash flow or liquidity problems within the year. AGI and its subsidiaries are not in default or breach of any note, loan, lease or other indebtedness or financing arrangement requiring it to make payments.

There are no other known events that will trigger direct or contingent financial obligation that is currently considered material to the Company, including any default or acceleration of an obligation. There are no other material off-balance sheet transactions, arrangements, obligations, and other relationships with unconsolidated entities or other persons created during the reporting period.

There are no other known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations. There are also no known events that will cause material change in the relationship between costs and revenues.

There are no other significant elements of income or loss that did not arise from continuing operations.

There were no other material issuances, repurchases or repayments of debt and equity securities.

The business has no seasonal aspects that had a material effect on the financial condition and results of operations of the Group.

ALLIANCE GLOBAL GROUP, INC. AND SUBSIDIARIES
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2013
*(Amounts in Thousand Philippine Pesos, Unless Otherwise Indicated,
Except Per Share Amounts)*

1. CORPORATE INFORMATION

Alliance Global Group, Inc. (the Company, Parent Company, or AGI) was registered with the Philippine Securities and Exchange Commission (SEC) on October 12, 1993 and began operations in 1994 as a glass-container manufacturer. On March 12, 1999, it obtained approval from the SEC to broaden its primary business into that of a holding company. Given a wider scope of business, AGI immediately diversified its investment holdings and on April 19, 1999, AGI listed its shares in the Philippine Stock Exchange (PSE). As of June 30, 2013, December 31, 2012 and 2011, the Company and its subsidiaries and associates (collectively referred to as “the Group”) operate businesses in real estate development, tourism-entertainment and gaming, food and beverage, and quick service restaurant segments under the following entities (see Note 4):

Explanatory notes:

- (a) Subsidiaries of Megaworld; Megaworld is 40% directly owned by AGI and 23% owned through other subsidiaries (NTLPI and FCI). Effective ownership over Megaworld increased due to additional acquisition of shares by AGI and NTLPI in 2012. AGI also has subscribed to 2.5 billion shares out of the proposed increase in authorized capital stock of Megaworld; such is not taken into account yet in the ownership presented above (see Note 11).
- (b) Subsidiaries of EELHI
- (c) Became an associate in 2012; Ownership interest derived from TDI, MREI and Megaworld
- (d) Subsidiaries of FCI in 2010; In 2011, became subsidiaries of SHDI, an associate of Megaworld
- (e) AGI and Megaworld directly owns 49% and 51%, respectively.
- (f) Subsidiaries of GERI; Effective ownership over GERI increased due to additional acquisition of shares by AGI.
- (g) A subsidiary of AGI through 60% and 40% direct ownership of GERI and Megaworld, respectively
- (h) A subsidiary of AGI through 60% and 40%, direct ownership of EELHI and FCI, respectively

- (i) A subsidiary of AGI through 50/50 ownership of Travellers and Megaworld.
- (j) Formerly a jointly-controlled entity. As of the beginning of 2012, AGI has the power to govern the financial and operating policies of Travellers. As such, after considering the provisions of applicable accounting standards, Travellers qualified as a subsidiary in 2012 and, accordingly, the accounts of Travellers have been consolidated into the Group's financial statements beginning 2012. Travellers is 20% directly owned by AGI and 25%, 10%, and 5% through Adams, Megaworld and FCI, respectively.
- (k) Subsidiaries of Travellers.
- (l) Foreign subsidiaries operating under the laws of United States of America
- (m) Subsidiaries of GADC
- (n) Foreign subsidiaries operating under the Business Companies Act of the British Virgin Islands (BVI)
- (o) Foreign subsidiaries operating under the laws of the Cayman Islands
- (p) A foreign associate operating in the BVI; AGI's ownership interest is through the 39% and 5% direct interest of RHGI and AG Cayman, respectively. AG Cayman only acquired interest starting 2011.
- (q) Associates of Megaworld
- (r) Associates of GERI; OPI was consolidated in 2012.
- (s) Joint ventures of GADC
- (t) Associate of Travellers.
- (u) Former corporate name, Forbes Town Properties and Holdings, Inc.
- (v) On June 7, 2013, Megaworld purchased shares held by EELHI and SHDI thereby increasing its ownership in SPI to 100%
- (w) As of June 30, 2013, Megaworld's ownership interest increased due to additional shares bought

AGI's shares of stock and those of Megaworld, GERI, EELHI and SHDI are listed in and traded through the PSE.

The principal activities of the Group are further described in Note 4.

The Company's registered office and primary place of business is located at the 7th Floor, 1880 Eastwood Avenue, Eastwood City CyberPark, 188 E. Rodriguez, Jr. Avenue, Bagumbayan, Quezon City.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 *Basis of Preparation of Consolidated Financial Statements*

(a) *Compliance with Interim Financial Reporting Standard*

These interim consolidated financial statements (ICFS) have been prepared in accordance with Philippine Accounting Standard (PAS) 34, *Interim Financial Reporting*. They do not include all of the information required in annual financial statements in accordance with Philippine Financial Reporting Standards (PFRSs), and should be read in conjunction with the audited consolidated financial statements of the Group for the year ended December 31, 2012.

(b) *Application of PFRS*

The significant accounting policies and methods of computations used in the preparation of these interim consolidated financial statements are consistent with those applied in the most recent annual consolidated financial statements (ACFS) as of and for the year ended December 31, 2012, except for the application of adopted standards that became effective on January 1, 2013, as discussed in Note 2.3.

There are new PRFS, amendments, annual improvements and interpretations to existing standards that are effective for periods subsequent to 2013. The Group has decided not to early adopt any PFRS for its 2012 annual consolidated

financial reporting and therefore, the interim consolidated financial statements do not reflect the impact of any early adoption of PFRSs, including PFRS 9, *Financial Instruments: Classification and Measurement* (effective from January 1, 2015). To date, other chapters of PFRS 9 are still being completed. The Group does not expect to implement and adopt PFRS 9 until its effective date or until all chapters of this new standard have been published. In addition, management is currently assessing the impact of PFRS 9 on the consolidated financial statements and it plans to conduct a comprehensive study of the potential impact of this standard prior to its mandatory adoption date to assess the impact of all changes.

(c) *Functional and Presentation Currency*

The consolidated financial statements are presented in Philippine pesos, the Company's functional and presentation currency, and all values are presented in thousands except when otherwise indicated.

Items included in the consolidated financial statements are measured using the Company's functional currency.

(d) *Presentation of Consolidated Financial Statements*

The presentation of the ICFS is consistent with the most recent ACFS presentation, except for the amendments introduced by new accounting standards mentioned in Note 2.3. Regrouping of certain accounts in the comparative prior period presented was made to conform to the current period's presentation so that comparability is not impaired.

The Group presents all items of income and expense in a single consolidated statement of comprehensive income.

Two comparative periods are presented for the consolidated statement of financial position because of the retrospective application of the new accounting policy on retirement benefits as discussed in Note 2.3.

2.2 Basis of Consolidation

The consolidated financial statements presented comprise the financial statements of the Company and its subsidiaries, as enumerated in Note 1, after the elimination of material intercompany transactions. All intercompany balances and transactions with subsidiaries, including income, expenses, dividends and unrealized profits and losses from intercompany transactions that are recognized in assets are eliminated. Intercompany losses that indicate impairment are recognized in the consolidated financial statements.

In addition, shares of stock of the Company acquired by any of these subsidiaries are recognized as treasury shares and these are presented as deduction in the consolidated statement of changes in equity at cost. Any changes in their market values as recognized separately by the subsidiaries are likewise eliminated in full. Gain or loss on the sale of these treasury shares is presented as addition to or deduction from additional paid-in capital (APIC).

The Group accounts for its investments in subsidiaries and associates, interests in joint ventures, and transactions with non-controlling interest as follows:

(a) *Investments in Subsidiaries*

Subsidiaries are all entities over which the Company has the power to control the financial and operating policies, generally accompanying a shareholding of more than one half of the voting rights. Control also exists in exceptional cases when the Company owns half or less than half the voting power of an entity when there is: (a) power over more than half of the voting rights by virtue of an agreement with other investors; (b) power to govern the financial and operating policies of the entity under a statute or an agreement; (c) power to appoint or remove the majority of the members of the BOD or equivalent governing body and control of the entity is by that board or body; or (d) power to cast the majority votes at meetings of the BOD or equivalent governing body and control of the entity is by that board or body.

The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity. Subsidiaries are consolidated from the date the Company obtains control until such time that such control ceases. The acquisition method is applied to account for acquired subsidiaries (see Note 2.11).

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the Company's share of the identifiable net assets acquired is recognized as goodwill (see Note 2.12). If the consideration transferred is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognized directly as gain in consolidated profit or loss.

(b) *Investments in Associates*

Associates are those entities over which the Company is able to exert significant influence but not control and which are neither subsidiaries nor interests in a joint venture. Investments in associates are initially recognized at cost and subsequently accounted for using the equity method.

All subsequent changes to the share of interest in the equity of the associate are recognized in the carrying amount of the Company's investment. Changes resulting from the profit or loss generated by the associate are shown as Share in Net Profits (Losses) of Associates and Joint Ventures in the Group's consolidated statement of comprehensive income and, therefore, affect the net results of operations of the Group.

Changes resulting from other comprehensive income of the associates or items that have been directly recognized in the associate's equity, for example, resulting from the associate's accounting for available-for-sale (AFS) financial assets, are recognized in the consolidated other comprehensive income or equity of the Group, as applicable. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

(c) *Interests in Joint Ventures*

Interest in a joint venture is accounted using the equity method. Under the equity method, the interest is initially recognized at cost and the carrying

amount is increased or decreased to recognize the Company's share in the profit or loss of the joint venture after the date of acquisition. Unrealized gains arising from transactions with jointly controlled entity are eliminated to the extent of the Company's interest in joint venture against the related investment. Unrealized losses are eliminated similarly but only to the extent that there is no evidence of impairment of the asset transferred.

(d) *Transactions with Non-controlling Interest*

The Group's transactions with non-controlling interest that do not result in loss of control are accounted for as equity transactions – that is, as transaction with the owners of the Group in their capacity as owners. The difference between the fair value of any consideration paid and the relevant share acquired of the carrying value of the net assets of the subsidiary is recognized in equity. Disposals of equity investments to non-controlling interest result in gains and losses for the Group that are also recognized in consolidated equity.

2.3 Adoption of New and Amended Accounting Policies

The following standards, amendments and annual improvements to existing standards become effective from January 1, 2013 are relevant to and adopted by the Group:

- (a) PAS 1 (Amendment), *Financial Statements Presentation – Presentation of Items of Other Comprehensive Income* (effective from July 1, 2012). The amendment requires an entity to group items presented in other comprehensive income into those that, in accordance with other PFRSs: (a) will not be reclassified subsequently to profit or loss; and, (b) will be reclassified subsequently to profit or loss when specific conditions are met. The amendment affected presentation of other comprehensive income items only and had no impact on the Group's financial position or performance.
- (b) PAS 19 (Revised), *Employee Benefits* (effective from January 1, 2013). The revision made a number of changes as part of the improvements throughout the standard. The main changes relate to defined benefit plans as follows:
- eliminates the corridor approach under the existing guidance of PAS 19 and requires an entity to recognize all actuarial gains and losses arising in the reporting period;
 - streamlines the presentation of changes in plan assets and liabilities resulting in the disaggregation of changes into three main components of service costs, net interest on net defined benefit obligation or asset, and re-measurement; and,
 - enhances disclosure requirements, including information about the characteristics of defined benefit plans and the risks that entities are exposed to through participation in those plans.

PAS 19 has been applied retrospectively based on available information in the audited ACFS which have been restated accordingly. (As of December 31, 2012, the Group was using the corridor approach.) The cumulative effect as at January 1, 2012 is reported as an adjustment to opening equity.

The effects of the application on the statement of financial position at January 1, 2012 and December 31, 2012 and on the statement of comprehensive income for the years ended December 31, 2012 and 2011 are as follows:

(c) PAS 34 (Amendment), *Interim Financial Reporting and Segment Information for Total Assets and Liabilities* (effective from January 1, 2013). This standard clarifies the requirements on segment information for total assets and liabilities for each reportable segment to enhance consistency with the requirements in paragraph 23 of PFRS 8, *Operating Segments*. It also clarifies that the total assets and liabilities for a particular reportable segment are required to be disclosed if, and only if: (a) a measure of total assets or of total liabilities (or both) is regularly provided to the chief operating decision maker; and, (b) there has been a material change from those measures disclosed in the last annual financial statements for that reportable segment. This amendment did not affect the current interim disclosures and had no impact on the Group's financial position or performance.

(d) Consolidation Standards effective January 1, 2013

- PFRS 10, *Consolidated Financial Statements*. This standard builds on existing principles of consolidation by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements. The standard also provides additional

guidance to assist in determining control where this is difficult to assess. The adoption of this standard did not affect the present classification of investees.

- PFRS 11, *Joint Arrangements*. This standard provides for a more realistic reflection of joint arrangements by focusing on the rights and obligations of the arrangement, rather than its legal form (as is currently the case). The standard addresses inconsistencies in the reporting of joint arrangements by requiring a single method to account for interests in jointly controlled entities. The Group is currently evaluating the impact based on audited financial statements as of December 31, 2012.
- PFRS 12, *Disclosure of Interest in Other Entities*. This standard integrates and makes consistent the disclosure requirements for all forms of interests in other entities, including joint arrangements, associates, special purpose vehicles and unconsolidated structured entities. This also introduces new disclosure requirements about the risks to which an entity is exposed from its involvement with structured entities. The Group is currently evaluating the impact based on audited financial statements as of December 31, 2012.
- PAS 27 (Amendment), *Separate Financial Statements*. This revised standard now covers the requirements pertaining solely to separate financial statements after the relevant discussions on control and consolidated financial statements have been transferred and included in PFRS 10. No new major changes relating to separate financial statements have been introduced as a result of the revision and this amendment does not affect the ICFS.
- PAS 28 (Amendment), *Investments in Associate and Joint Venture*. This revised standard includes the requirements for joint ventures, as well as associates, to be accounted for using equity method following the issuance of PFRS 11, *Joint Arrangement*. This amendment did not have a material impact on the Group's financial condition and performance since the Group already uses the equity method in accounting for associates.

Subsequent to the issuance of the foregoing consolidation standards, the IASB made some changes to the transitional provisions in International Financial Reporting Standard (IFRS) 10, IFRS 11 and IFRS 12, which were also adopted by the FRSC. The guidance confirms that an entity is not required to apply PFRS 10 retrospectively in certain circumstances and clarifies the requirements to present adjusted comparatives. The guidance also made changes to PFRS 10 and PFRS 12 which provide similar relief from the presentation or adjustment of comparative information for periods prior to the immediately preceding period. Further, it provides relief by removing the requirement to present comparatives for disclosures relating to unconsolidated structured entities for any period before the first annual period for which PFRS 12 is applied.

- (e) PFRS 7 (Amendment), *Financial Instruments: Disclosures – Offsetting Financial Assets and Financial Liabilities* (effective from January 1, 2013). The amendment requires qualitative and quantitative disclosures relating to gross and net amounts of recognized financial instruments that are setoff in accordance with PAS 32, *Financial Instruments: Presentation*. The amendment also requires disclosure of

information about recognized financial instruments which are subject to enforceable master netting arrangements or similar agreements, even if they are not setoff in the statement of financial position, including those which do not meet some or all of the offsetting criteria under PAS 32 and amounts related to a financial collateral. These disclosures will allow financial statement users to evaluate the effect or potential effect of netting arrangements, including rights of set-off associated with recognized financial assets and financial liabilities on the entity's financial position. The amendment did have a significant impact on the Group's financial position or performance.

- (f) PFRS 13, *Fair Value Measurement* (effective from January 1, 2013). This standard aims to improve consistency and reduce complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across PFRS. The requirements do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards. This new standard has no significant effects on the consolidated financial statements since the Group's current fair value measurement methods are already in accordance with the requirements of other relevant accounting standards.
- (g) 2009-2011 Annual Improvements to PFRS (effective from January 1, 2013). Annual improvements to PFRS (2009-2011 Cycle) made minor amendments to a number of PFRS, which are effective for annual period beginning on or after January 1, 2013. Among those improvements, the following amendments are relevant to the Group but management does not expect a material impact on the Group's consolidated financial statements:
- PAS 1 (Amendment), *Presentation of Financial Statements – Clarification of the Requirements for Comparative Information*. The amendment clarifies that when an entity applies an accounting policy retrospectively, or makes a retrospective restatement or reclassification of items that has a material effect on the information in the statement of financial position at the beginning of the preceding period (i.e., opening statement of financial position), it shall present such third statement of financial position. Other than disclosure of certain specified information in accordance with PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors*, related notes to the opening statement of financial position as at the beginning of the preceding period are not required to be presented.
 - PAS16 (Amendment), *Property, Plant and Equipment – Classification of Servicing Equipment*. The amendment addresses a perceived inconsistency in the classification requirements for servicing equipment which resulted in classifying servicing equipment as part of inventory when it is used for more than one period. It clarifies that items such as spare parts, stand-by equipment and servicing equipment shall be recognized as property, plant and equipment when they meet the definition of property, plant and equipment, otherwise, these are classified as inventory. The amendment has no material impact on the Group's consolidated financial statements.
 - PAS 32 (Amendment), *Financial Instruments – Presentation – Tax Effect of Distributions to Holders of Equity Instruments*. The amendment clarifies that the consequences of income tax relating to distributions to holders of an

equity instrument and to transaction costs of an equity transaction shall be accounted for in accordance with PAS 12. Accordingly, income tax relating to distributions to holders of an equity instrument is recognized in profit or loss while income tax related to the transaction costs of an equity transaction is recognized in equity. The amendment did not affect the Group's financial position or performance as the Company did not distribute any equity instrument to its stockholders during the period.

2.4 PFRS Effective in 2013 that are Not Relevant to the Group

The following are mandatory for accounting periods beginning on or after January 1, 2013 but are not relevant to and not adopted by the Group:

- PFRS 1 (Amendment), *First-time Adoption of PFRS – Government Loans*
- Philippine Interpretation International Financial Reporting Interpretations Committee 20, *Stripping Costs in Production Phase of a Surface Mine*

See Note 2.1(b)

2.5 Financial Assets

Financial assets are recognized when the Group becomes a party to the contractual terms of the financial instrument. Financial assets other than those designated and effective as hedging instruments are classified into the following categories: financial assets at fair value through profit or loss (FVTPL), loans and receivables, held-to-maturity investments and available-for-sale (AFS) financial assets. Financial assets are assigned to the different categories by management on initial recognition, depending on the purpose for which the investments were acquired.

The financial asset categories currently relevant to the Group are financial assets at FVTPL, loans and receivables and AFS financial assets. A more detailed description of these financial assets is as follows:

(a) *Financial Assets at FVTPL*

This category includes financial assets that are either classified as held-for-trading or that meets certain conditions and are designated by the entity to be carried at FVTPL upon initial recognition. Changes in fair values are recognized in consolidated profit or loss and included under Finance and Other Income for gains or Finance Costs and Other Charges for losses. The Group's financial assets included in this category consist mainly of investments in marketable debt and equity securities, and derivative assets.

(b) *Loans and Receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Group provides money, goods or services directly to a debtor with no intention of trading the receivables. Loans and receivables are subsequently measured at amortized cost using the effective interest method, less impairment loss, if any. Impairment loss is provided when there is objective evidence that the Group will not be able to collect all amounts due to it in accordance with the original terms of the receivables. The financial assets are included in current

assets, except for maturities greater than 12 months after the end of the reporting period which are classified as non-current assets.

The Group's financial assets categorized as loans and receivables are presented as Cash and Cash Equivalents, Trade and Other Receivables (except Advances to Contractors and Suppliers), Advances to Associates and Other Related Parties (included under Investments in and Advances to Associates and Other Related Parties account), Short-term Placements (included under Other Current Assets account) and Refundable Security Deposits (included under Other Non-current Assets account). Cash and cash equivalents include cash on hand, demand deposits and short-term, highly liquid investments readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value.

(c) *AFS Financial Assets*

This category includes non-derivative financial assets that are either designated to this category or do not qualify for inclusion in any of the other categories of financial assets. All financial assets within this category are subsequently measured at fair value. Gains and losses from changes in fair value are recognized in other comprehensive income, net of any income tax effects, and are reported as part of the Revaluation Reserves account in consolidated equity. They are included in non-current assets classification in the consolidated statement of financial position unless management intends to dispose of the investment within 12 months after the end of the reporting period.

The Group's AFS financial assets include investments in marketable equity securities where the Group held no significant influence and shares that are not listed in the stock exchange and investments in marketable debt securities designated as AFS by management at initial recognition.

For investments that are actively traded in organized financial markets, fair value is determined by reference to exchange-quoted market bid prices at the close of business on the reporting period. For investments where there is no quoted market price, fair value is determined by reference to the current market value of another instrument which is substantially the same or is calculated based on the expected cash flows of the underlying net asset base of the investment.

Non-compounding interest, dividend income and other cash flows resulting from holding financial assets are recognized in consolidated profit or loss when earned, regardless of how the related carrying amount of financial assets is measured.

A financial asset is reported net of financial liability in the consolidated statement of financial position when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

The financial assets are derecognized when the contractual rights to receive cash flows from the financial instruments expire, or when the financial assets and all substantial risks and rewards of ownership have been transferred.

2.6 Inventories

Inventories are valued at the lower of cost and net realizable value (NRV). Cost is determined using weighted average method, except for food, paper, and promotional items which use the first-in, first-out method. NRV is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. NRV of raw materials, spare parts and other operating supplies is the current replacement cost.

Cost of Real estate for sale includes costs incurred for development and improvement of the properties and borrowing costs on loans directly attributable to the projects which were capitalized during construction. Accounting policies for real estate development transactions are discussed in more detail in Note 2.7.

2.7 Real Estate Transactions

Acquisition costs of raw land intended for future development, including other costs and expenses incurred to effect the transfer of title of the property to the Group, are charged to the Land for Future Development account. These costs are reclassified to Property Development Costs account when the development of the property starts. Related property development costs are then accumulated in this account. Borrowing costs on certain loans, if any, incurred during the development of the real estate properties are also capitalized by the Group as part of Property Development Costs. Once a revenue transaction occurs on a per project basis, up to the stage the unit is sold, the related property development costs are reclassified to Real Estate for Sale classified under Inventories account (see Note 2.6) in the consolidated statement of financial position.

The cost of real estate property sold before completion of the development, if any, is determined based on the actual costs incurred to date plus estimated costs to complete the development of the property. The estimated expenditures for the development of sold real estate property, as determined by the project engineers, are presented as part of Cost of Goods Sold in the consolidated statement of comprehensive income with a corresponding credit to the liability account, Reserve for Property Development account.

Costs of properties and projects accounted for as Land for Future Development Costs, Property Development Costs and Real Estate for Sale are assigned using specific identification of their individual costs. These properties and projects are valued at the lower of cost and NRV. NRV is the estimated selling price in the ordinary course of business, less estimated costs to complete and the estimated costs necessary to make the sale.

The Group recognizes the effect of revisions in the total project cost estimates in the year in which these changes become known. Any impairment loss from a real estate project is charged to operations during the period in which the loss is determined.

2.8 Other Assets

Other assets presented either under current or non-current assets classification in the consolidated statement of financial position pertain to other resources controlled by the Group as a result of past events. They are recognized in the consolidated financial

statements when it is probable that the future economic benefits will flow to the entity and the asset has a cost or value that can be measured reliably.

2.9 Property, Plant and Equipment

Property, plant and equipment, except land, are stated at cost less accumulated depreciation, amortization and any impairment in value. As no finite useful life for land can be determined, the related carrying amount is not depreciated. Land held for use in production or administration is stated at cost less any impairment in value.

Depreciation is computed on the straight-line basis over the estimated useful lives of the assets as follows:

Buildings and land improvements	5 to 40 years
Condominium units	10 to 25 years
Machinery and equipment	2 to 12 years
Fixtures and other equipment	3 to 10 years
Transportation equipment	3 to 10 years

Leasehold improvements are amortized over the life of the assets of 5 to 40 years or the term of the lease, whichever is shorter.

Construction in progress represents properties under construction and is stated at cost. This includes cost of construction, applicable borrowing costs and other direct costs. The account is not depreciated until such time that the assets are completed and available for use.

Fully depreciated and amortized assets are retained in the accounts until they are no longer in use and no further charge for depreciation and amortization is made in respect of those assets.

2.10 Investment Property

Properties held for lease under operating lease agreements, which comprise mainly of land, buildings and condominium units, are classified as Investment Property and are carried at cost less accumulated depreciation and any impairment in value.

Depreciation of investment property (excluding land) is computed using the straight-line method over the estimated useful lives of the assets ranging from 5 to 50 years.

2.11 Business Combinations

Business acquisitions are accounted for using the acquisition method of accounting. The cost of an acquisition is measured at the aggregate of the fair values, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognized in profit or loss in the consolidated statement of comprehensive income as incurred.

Where appropriate, the cost of acquisition includes any asset or liability resulting from a contingent consideration arrangement, measured at its fair value at the date of acquisition.

Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognized in accordance with PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, either in consolidated profit or loss or as a change to consolidated other comprehensive income. Contingent consideration that is classified as equity is not re-measured, and its subsequent settlement is accounted for within equity.

Gains and losses on the disposal of an interest in a subsidiary include the carrying amount of the related goodwill (see Note 2.12).

2.12 Intangible Assets

Intangible Assets include goodwill, trademarks, leasehold rights and computer software. Except goodwill, all other intangible assets have finite lives and are carried at cost less accumulated amortization and any impairment in value. Goodwill is not amortized, but is reviewed for impairment at least annually.

Goodwill represents the excess of the cost of investment in shares of stocks over the fair value of the Group's share of the net identifiable assets of the acquired subsidiary at the date of acquisition. On disposal of a subsidiary, the attributable amount of goodwill is included in the determination of the consolidated profit or loss on disposal.

The cost of trademarks, leasehold rights and computer software includes the acquisition price and other direct costs. Capitalized costs are amortized on a straight-line basis over the estimated useful life of 10 and 3 years, for trademarks and computer software, respectively, and over the term of the lease for leasehold rights. In addition, these assets are subject to impairment testing.

Costs associated with maintaining computer software and any costs associated with research activities are recognized as expense in consolidated profit or loss as incurred.

2.13 Financial Liabilities

The categories of financial liabilities relevant to the Group are more fully described below.

(a) Financial Liabilities at FVTPL

Financial liabilities are classified in this category if they are held-for-trading or derivative transactions that are not accounted for as accounting hedges, or when the Group elects to designate a financial liability under this category.

The Group occasionally uses derivative financial instruments, such as foreign exchange forward contracts and interest rate swaps. The Group's derivative instruments provide economic hedges under the Group's policies but are not designated as accounting hedges. Consequently, any gains or losses arising from changes in fair value are taken directly to net profit or loss for the period. Derivatives are carried as liabilities when the fair value is negative, which are presented under the Other Liabilities (current and non-current) account in the consolidated statements of financial position.

(b) *Financial Liabilities at Amortized Costs*

This category pertains to financial liabilities that are not held-for-trading or not designated as FVTPL upon inception of the liability. These include liabilities arising from operations or borrowings.

Financial liabilities, which include Interest-bearing Loans, Bonds Payable, Trade and Other Payables (except tax related payables), Advances from Related Parties, Redeemable Preferred Shares, Security Deposits and Payable to MRO under Stock Option Plan are recognized when the Group becomes a party to the contractual agreements of the instrument.

All interest-related charges incurred on financial liability are recognized as an expense in profit or loss under the caption Finance Costs and Other Charges in the consolidated statement of comprehensive income.

Financial liabilities are classified as current liabilities if payment is due to be settled within one year or less after the end of the reporting period (or in the normal operating cycle of the business, if longer), or the Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the end of the reporting period. Otherwise, these are presented as non-current liabilities.

2.14 Provisions and Contingencies

Provisions are recognized when present obligations will probably lead to an outflow of economic resources and they can be estimated reliably even if the timing or amount of the outflow may still be uncertain. A present obligation arises from the presence of a legal or constructive commitment that has resulted from past events.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

In those cases where the possible outflow of economic resource as a result of present obligations is considered improbable or remote, or the amount to be provided for cannot be measured reliably, no liability is recognized in the consolidated financial statements. Similarly, possible inflows of economic benefits to the Group that do not yet meet the recognition criteria of an asset are considered contingent assets, hence, are not recognized in the consolidated financial statements. On the other hand, any reimbursement that the Group can be virtually certain to collect from a third party with respect to the obligation is recognized as a separate asset not exceeding the amount of the related provision.

2.15 Equity

Capital stock represents the nominal value of shares that have been issued.

Additional paid-in capital (APIC) includes any premiums received on the initial issuance or reissuance of capital stock. Any transaction costs associated with such issuances of shares are deducted from APIC, net of any related income tax benefits. Excess of proceeds over acquisition cost of treasury shares is also added to APIC.

Treasury shares are AGI shares reacquired by the Company but not cancelled or AGI shares held by subsidiaries for investment purposes. These are carried at cost of reacquiring such shares (see also Note 2.2).

Revaluation reserves represent unrealized fair value gains or losses on AFS financial assets (pertaining to cumulative mark-to-market valuation [see Note 2.5(c)] and share in other comprehensive income of associates and joint ventures attributable to the Group) and actuarial gains or losses on retirement benefits plans [see Note 2.3 (b)].

Accumulated translation adjustments represent the translation adjustments resulting from the conversion of foreign currency denominated financial statements of certain subsidiaries into the Group's presentation currency (see Note 2.17).

Dilution gain or loss arises when an investor exercises its pre-emptive rights to maintain its ownership interest in an investee. This also includes the Company's share in previous period's profit (loss) as a result of the current increase (decrease) in equity ownership over its subsidiaries. Dilution gain or loss is recognized on investments of which the Company continues to exercise control.

Share options represent the value of share options during vesting period upon recognition of share-based remuneration expense in profit or loss.

Retained earnings, the appropriated portion of which is not available for dividend declaration, represent all current and prior period results of operations as reported in the profit and loss section of the consolidated statement of comprehensive income, reduced by the amount of dividends declared.

2.16 Revenue and Expense Recognition

Revenue is recognized to the extent that the revenue can be reliably measured by reference to the fair value of consideration received or receivable by the Group; it is probable that future economic benefits will flow to the Group; and the costs incurred or to be incurred can be measured reliably. In addition, the following specific recognition criteria must also be met before revenue is recognized:

- (a) *Sale of goods* – Revenue, net of rebates and trade discounts, is recognized when the risks and rewards of ownership of the goods have passed to the buyer. This is generally when the customer acknowledged delivery of goods.
- (b) *Sale of residential and condominium units [included as part of Sale of Goods – Real Estate (RE) Sales]*– For financial reporting purposes, revenues from transactions covering sales of residential and condominium units are recognized under the percentage-of-completion method. Under this method, realization of gross profit is recognized by reference to the stage of development of the properties (i.e., revenue is recognized in the period in which the work is performed). The unrealized gross profit on a year's sales is presented as Deferred Gross Profit on Real Estate Sales (under Cost of Goods Sold) in the consolidated statement of comprehensive income; the cumulative unrealized gross profit as of the end of the year is shown as Deferred Income on Real Estate Sales (under Other Current and Non-current Liabilities) in the consolidated statement of financial position.

The sale is recognized when a certain percentage of the total contract price has already been collected. If the transaction does not yet qualify as sale, the deposit method is applied until all conditions for recording the sale are met. Pending the recognition of sale, payments received from buyer are initially recorded Customers' Deposits and presented as part of Other Liabilities (current and non-current) in the consolidated statement of financial position.

Any adjustments relative to previous years' sales are recorded in the current year as they occur.

For tax reporting purposes, a modified basis of computing the taxable income for the year based on collections from real estate sales is used by the Group.

- (c) *Interest income on real estate sales (included as part of Revenue from RE Sales)* - are considered in the determination of total revenue for real estate sales (see Note 23). It is recognized when interest accrues taking into account the underlying sale of real estate under installment method through in-house financing (not through externally financed home loans obtained by customers).
- (d) *Sale of undeveloped land and golf and resort shares (included as part of Sale of goods - RE Sale)* – Revenues on sale of undeveloped land and golf and resort shares for sale are recognized using the full accrual method. Under the full accrual method, revenue is recognized when the risks and rewards of ownership have passed to the buyer and the amount of revenue can be measured reliably.
- (e) *Gaming Revenues* – Revenue is recognized from net wins from gaming activities which represent the difference between coins and currencies deposited into the gaming machines and the payments to customers and, for other games, the difference between gaming wins and losses.
- (f) *Revenue from Hotel Operations* – Revenue from hotel operations is recognized when services are rendered.
- (g) *Sales from Company-operated quick-service restaurants* – Revenue from restaurant sales operations are recognized when the services are rendered, that is, food and beverage products or promotional items purchased by customers have been delivered and accepted by the customers.
- (h) *Franchise revenues* – Revenue from franchised McDonald's restaurants (including the restaurant operated by a joint venture) includes continuing rental, royalty and management fees. These are recognized in the period earned.
- (i) *Rentals* – Rental income is recognized on a straight-line basis over the duration of the lease terms. For tax purposes, rental income is recognized based on the contractual terms of the lease. Advance rentals and refundable rental deposits, if any, are recorded as deferred rental. Deferred rental, specifically the refundable rental deposit, is measured at amortized cost using the effective interest rate method.
- (j) *Interest* – Revenue is recognized as the interest accrues taking into account the effective yield on the asset.

- (k) *Dividends* – Revenue is recognized when the right to receive the payment is established.

Revenue and expenses are recognized excluding the amount of value-added tax.

The Group provides a membership card for its gaming patrons (i.e., of Travellers). Members earn points on gaming activity and such points are redeemable for complimentary goods and services such as rooms, food, beverages and others. Members may also earn special coupons or awards as determined during marketing promotions. The Group records revenue for the original transaction and a provision (and a corresponding recognition of promotional allowances in profit or loss) for the value of the points earned by members by reference to the relative fair values of the complimentary goods or services.

Cost and expenses (other than cost of real estate sales) are recognized in profit or loss upon utilization of the services or receipt of the goods or at the date they are incurred. All finance costs are reported in consolidated profit or loss on an accrual basis, except capitalized borrowing costs which are included as part of the cost of the related qualifying asset.

Costs of residential and condominium units sold before completion of the projects include the acquisition cost of the land, development costs incurred to date, applicable borrowing costs and estimated costs to complete the project, determined based on estimates made by the project engineers (see Note 2.6).

2.17 Foreign Currency Transactions and Translation

(a) Transactions and Balances

Foreign currency transactions during the period are translated into the functional currency at exchange rates which approximate those prevailing on transaction dates.

Foreign currency gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the consolidated statement of comprehensive income.

(b) Translation of Financial Statements of Foreign Subsidiaries

The operating results and financial position of foreign subsidiaries (see Note 1) which are measured using the United States (U.S.) dollars, their functional currency, are translated to Philippine pesos, the Group's functional currency as follows:

- (i) Monetary assets and liabilities for each statement of financial position presented are translated at the closing rate at the end of the reporting period;
- (ii) Non-monetary assets and liabilities for each statement of financial position presented, which are measured in terms of historical cost, are translated using the exchange rate at the date of the transaction. Non-monetary assets

and liabilities which are measured at fair value are translated using the exchange rates at the date when the fair value was determined;

- (iii) Income and expenses for each profit or loss account are translated at the average exchange rates over the reporting period (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and,
- (iv) All resulting exchange differences are recognized in consolidated other comprehensive income and in a separate component of consolidated equity under Accumulated Translation Adjustments.

When a foreign operation is partially disposed of or sold, such exchange differences are recognized in the consolidated statement of comprehensive income as part of the gain or loss on sale.

The translation of the financial statements into Philippine peso should not be construed as a representation that the U.S. dollar amounts could be converted into Philippine peso amounts at the translation rates or at any other rates of exchange.

2.18 Earnings Per Share

Basic earnings per share (EPS) is computed by dividing net profit attributable to equity holders of the parent company by the weighted average number of shares issued and outstanding, adjusted retroactively for any stock dividend, stock split or reverse stock split declared during the current period.

Diluted EPS is computed by adjusting the weighted average number of ordinary shares outstanding to assume conversion of dilutive potential shares (e.g. vested share options).

2.19 Segment Reporting

There have been no changes from prior periods in the measurement methods used to determine reported segment profit or loss.

2.20 Related Party Transactions and Relationships

Related party transactions are transfers of resources, services or obligations between the Group and its related parties, regardless whether a price is charged.

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. These parties include: (a) individuals owning, directly or indirectly through one or more intermediaries, control or are controlled by, or under common control with the Company; (b) associates; (c) individuals owning, directly or indirectly, an interest in the voting power of the Company that gives them significant influence over the Group and close members of the family of any such individual, and (d) certain funded retirement plans, administered by trustee banks, of two significant subsidiaries.

In considering each possible related party relationship, attention is directed to the substance of the relationship and not merely on the legal form.

3. USE OF JUDGMENT AND ESTIMATES

The preparation of the ICFS in accordance with PFRS requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Although these estimates are based on management's best knowledge of current events and actions, actual results may ultimately differ from those estimates. There were no changes in estimates of amounts reported in prior financial years that have a material effect in the current interim period.

4. SEGMENT INFORMATION

4.1 Business Segments

The Group is organized into four major business segments, namely real estate, tourism – entertainment and gaming, food and beverage and quick service restaurant. Presented below is the basis of the Group in reporting its primary segment information.

- (a) The *Real Estate* segment is engaged in the development of real estate, integrated resorts, leasing of properties and hotel operations businesses.
- (b) The *Tourism – Entertainment and Gaming* segment relates to tourism-oriented business that integrates entertainment, hospitality and leisure, including gaming, as that of Resorts World Manila.
- (c) The *Food and Beverage* segment refers to the manufacture and distribution of distilled spirits, glass containers and potato snacks products.
- (d) The *Quick Service Restaurant* refers to operations of McDonald's restaurants in the Philippines in accordance with the franchise agreement with McDonald's Corporation, USA.

4.2 Segment Assets and Liabilities

Segment assets are allocated based on their physical location and use or direct association with a specific segment and they include all operating assets used by a segment and consist principally of operating cash and cash equivalents, trade and other receivables, inventories, property, plant and equipment, intangible assets and investment property. Segment liabilities include all operating liabilities and consist principally of trade and other payables, interest-bearing loans and bonds payable.

4.3 Intersegment Transactions

Segment revenues, expenses and performance include sales and purchases between business segments. Such material sales and purchases are eliminated in consolidation.

4.4 Analysis of Segment Information

4.5 Reconciliations

Presented below is a reconciliation of the Group's segment information to the key financial information presented in its consolidated financial statements.

	<u>2013</u>	<u>2012</u>
Revenues		
Total segment revenues	P 58,897,442	P 50,036,071
Unallocated corporate revenue	2,179,362	1,095,556
Share in the net profits of associates and joint ventures	<u>5,896</u>	<u>61,336</u>
Revenues as reported in consolidated profit or loss	<u>P 61,082,700</u>	<u>P 51,192,963</u>
Profit or loss		
Segment operating profit	P 10,012,965	P 8,025,833
Unallocated corporate profit	1,244,414	322,716
Share in the net profits of associates and joint ventures	<u>5,896</u>	<u>61,336</u>
Profit as reported in consolidated profit or loss	<u>P 11,263,275</u>	<u>P 8,409,885</u>
Assets		
Segment assets	P 272,057,273	P 230,466,320
Unallocated corporate assets	<u>29,277,267</u>	<u>32,229,546</u>
Total assets reported in the consolidated statements of financial position	<u>P 301,334,540</u>	<u>P 262,695,866</u>
Liabilities		
Segment liabilities	P 122,939,837	P 101,636,802
Unallocated corporate liabilities	<u>25,319,577</u>	<u>27,406,214</u>
Total liabilities reported in the consolidated statements of financial position	<u>P 148,259,414</u>	<u>P 129,043,016</u>

Concentration of revenue is considered when at least 10% of total segment revenue is generated from a single customer. There is no concentration of the Group's revenue in a single customer as the 10% threshold has not been met in any of the years presented.

5. EARNINGS PER SHARE

Earnings per share is computed (full amounts are used and not truncated) as follows:

	<u>2013</u>	<u>2012</u>
Basic:		
Net profit attributable to owners of the parent company	P 8,257,851,356	P 5,734,470,351
Divided by the weighted average number of outstanding common shares	<u>10,109,510,579</u>	<u>10,108,915,052</u>
	<u>P 0.8168</u>	<u>P 0.5673</u>
Diluted:		
Net profit attributable to owners of the parent company	P 8,257,851,356	P 5,734,470,351
Divided by the weighted average number of outstanding common shares	<u>10,134,805,932</u>	<u>10,116,309,873</u>
	<u>P 0.8148</u>	<u>P 0.5669</u>

As of June 30, 2013 and 2012, there are 25.0 million and 7.4 million potentially dilutive shares, respectively, from the Company's ESOP. However, such number of dilutive shares has no significant effect on the weighted average number of outstanding common shares and, consequently, has little effect on the 2013 and 2012 diluted EPS.

6. RELATED PARTY TRANSACTIONS

The Group's related parties include its stockholders, associates, jointly controlled entities, the Group's key management personnel and retirement fund, and others as described below.

The summary of the Group's transactions with its related parties as of and for the periods ended June 30, 2013 and December 31, 2012 are as follows:

6.1 Loan from McDonald's Restaurant Operations, Inc. (MRO)

GADC has a loan agreement with MRO. The principal amount of the loan of U.S.\$12.0 million is payable in full on March 17, 2025. Accrued interest payable as of June 30, 2013 and December 31, 2012 included as part of Accrued Expenses under Trade and Other Payables account in the consolidated statements of financial position amounted to P18.45 million and P18.1 million, respectively.

6.2 Rental Income from Associates

GERI leases its investment property to certain related parties with rental payments mutually agreed before the commencement of the lease. The revenue earned from leases to related parties are included as part of Rental Income under Rendering of Services account in the consolidated statements of comprehensive income. The outstanding receivable is short-term, unsecured, noninterest-bearing, and are generally settled in cash upon demand.

As of June 30, 2013 and December 31, 2012, based on management's assessment, the outstanding balance of rental income receivable from associate is not impaired; hence, no impairment losses were recognized.

6.3 Purchase of Goods

EDI sources its raw materials such as alcohol, molasses, flavorings and other supplies from certain related parties through common ownership. The outstanding liability related to such purchases is presented as part of Trade Payables under current Trade and Other Payables in the consolidated statements of financial position.

6.4 Receivable from a Joint Venture

Receivables from GCFII are unsecured, interest free and normally settled in cash. These are included in Trade Receivables under the Trade and Other Receivables account in the consolidated statements of financial position

As of June 30, 2013 and December 31, 2012, based on management's assessment, the outstanding balance of the receivable from joint venture is not impaired; hence, no impairment losses were recognized.

6.5 *Advances to Associates and Other Related Parties*

Entities within the Group grant to or obtain advances from associates and other entities for working capital purposes. These advances to and from associates and other related parties are unsecured, noninterest-bearing and repayable upon demand. Settlement is generally made in cash. The outstanding balances of Advances to Associates and Other Related Parties, which are shown as part of Investments in Associates and Other Related Parties account in the consolidated statements of financial position as of June 30, 2013 and December 31, 2012, are presented as follows (these mainly represent advances granted by Megaworld)

McDonald's granted GADC the nonexclusive rights to adopt and use the McDonald's System in its restaurant operations in the Philippines. In March 2005, the license agreement was renewed for another 20 years, and provides for a royalty fee based on certain percentage of net sales from the operations of GADC's restaurants, including those operated by the franchisees.

GADC recognized royalty expenses amounting to P331.3 million and P646.5 million for 2013 and 2012, respectively. The outstanding payable to McDonald's relating to royalty expenses amounted to P93 million and P112.1 million as of June 30, 2013 and December 31, 2012, respectively, and presented as part of Due to Related Parties under Trade and Other Payables account in the consolidated statements of financial position.

GADC leases a warehouse and nine restaurant premises from MPRC, a company owned by MRO. The lease terms are for periods which are co-terminus with the lease agreements entered into by GADC with the owners of the land where the warehouse and restaurants are located. Except for the warehouse for which a fixed annual rental of P10.0 million is charged, rentals charged by MPRC to GADC are based on agreed percentages of gross sales of each store.

Rental charged to operations amounted to P12.2 million and P42.5 million in 2013 and 2012, respectively. Outstanding balance pertaining to the said transaction amounted to P3.8 million and P3.3 million as of June 30, 2013 and December 31, 2012, respectively.

As of June 30, 2013 and December 31, 2012, based on management's assessment, the outstanding balances of Due from Related Parties are not impaired, hence, no impairment losses were recognized.

6.7 Non-current Advances from Related Parties

Certain expenses of unconsolidated entities within the Group are paid by other related parties on behalf of the former. The advances are unsecured, non-interest bearing and generally payable on demand. Due to JV partners pertain to the share of JV partners in the proceeds from the sale in accordance with various JV agreements entered into by GERI. Total outstanding balance of the accounts is presented as Advances from Related Parties account in the consolidated statements of financial position.

Details of Advances from Related Parties are presented as follows:

	<u>2013</u>	<u>2012</u>
Due from related parties	P 472,160	P 642,006
Due from joint venture partners	<u>223,695</u>	<u>214,397</u>

6.8 Operations and Management Agreement with Genting Hongkong Limited (GHL)

Some of Travellers' administrative functions are being handled by certain key officers and employees under the management of GHL as agreed by both parties under the Operations and Management Agreement. Management fees are presented as part of Management fees under the Other Operating Expenses account in the consolidated statements of comprehensive income. The outstanding liability arising from this transaction is presented as part of Accrued expenses in the Trade and Other Payables account in the consolidated statements of financial position.

7. COMMITMENTS AND CONTINGENCIES

There are other commitments, guarantees and contingent liabilities that arise in the normal course of operations of the Group which are not reflected in the accompanying ICFS. The management of the Group is of the opinion that losses, if any, from these items will not have any material effect on ICFSs.

In addition, there are no material off-balance sheet transaction, arrangements, obligations and other relationships of the Group with unconsolidated entities or other persons created during the reporting period.

8. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group has various financial instruments such as cash and cash equivalents, financial assets at FVTPL, AFS financial assets, interest-bearing loans, bonds payable, trade receivables and payables and derivative asset and liabilities which arise directly from the Group's business operations. The financial debts were issued to raise funds for the Group's capital expenditures.

The Group does not actively engage in the trading of financial assets for speculative purposes.

The Group is exposed to a variety of financial risks in relation to financial instruments. The main types of risks are market risk, credit risk and liquidity risk.

8.1 Market Risk

(a) Foreign Currency Sensitivity

Most of the Group's transactions are carried out in Philippine pesos, its functional currency. The currency exchange risk arises from the U.S. dollar-denominated cash and cash equivalents, FVTPL, loans and bonds which have been used to fund new projects. Foreign currency denominated financial assets and liabilities, translated into Philippine pesos at period-end closing rate are as follows:

	<u>2013</u>		<u>2012</u>	
	<u>U.S. Dollars</u>	<u>HK Dollars</u>	<u>U.S. Dollars</u>	<u>HK Dollars</u>
Financial assets	P 35,215,901	P 4,555,221	P 37,937,643	P 2,461,548
Financial liabilities	(<u>55,934,215</u>)	(<u>1,214,089</u>)	(<u>44,194,216</u>)	(<u>875,795</u>)
	<u>(P 20,718,314)</u>	<u>P 3,341,132</u>	<u>(P 6,256,573)</u>	<u>P 1,585,753</u>

The sensitivity of the consolidated income before tax for the period with regard to the Group's financial assets and the US dollar – Philippine peso exchange rate assumes +/-12% and +/- 14% changes of the Philippine peso/U.S. dollar exchange rate for the periods ended June 30, 2013 and December 31, 2012 respectively. The HK dollar – Philippine peso exchange rate assumes +/-7% and +/-13% change for the periods ended June 30, 2013 and December 31, 2012. These percentages have been determined based on the average market volatility in exchange rates in the previous year and 12 months, respectively, estimated at 95%

level of confidence. The sensitivity analysis is based on the Group's foreign currency financial instruments held at each reporting periods.

If the Philippine peso had strengthened against the U.S. dollar, with all other variables held constant, consolidated income before tax would have increased by P2.5 billion and P0.6 billion for the periods ended June 30, 2013 and December 31, 2012 respectively. If in 2013 the Philippine peso had strengthened against the HK dollar, with all other variables held constant, consolidated income before tax would have decreased by P0.2 billion.

However, if the Philippine peso had weakened against the U.S. dollar and the HK dollar by the same percentages; then consolidated income before tax would have changed at the opposite direction by the same amount.

The Group periodically reviews the trend of the foreign exchange rates and, as a practical move, increases its U.S. dollar-denominated time deposits in times when the Philippine peso is depreciating or decreases its U.S. dollar-denominated placements in times when the Philippine peso is appreciating.

Exposures to foreign exchange rates vary during the period depending on the volume of overseas transactions. Nonetheless, the analysis above is considered to be representative of the Group's currency risk.

(b) Interest Rate Sensitivity

The Group interest risk management policy is to minimize interest rate cash flow risk exposures to changes in interest rates. At present, the Group is exposed to changes in market interest rates through bank borrowings and cash and cash equivalents, which are subject to variable interest rates. The Group maintains a debt portfolio unit of both fixed and variable interest rates. All other financial assets are subject to variable interest rates.

The sensitivity of the consolidated income before tax for the period to a reasonably possible change in interest rates of +/-1.90% for Philippine peso and +/-0.43% and U.S. dollar in 2013 and +/-2.43% for Philippine peso and +/-0.56% for US dollar in 2012 with effect from the beginning of the period. These percentages have been determined based on the average market volatility in interest rates, using standard deviation, in the previous year and 12 months, respectively, estimated at 95% level of confidence.

The sensitivity analysis is based on the Group's financial instruments held at June 30, 2013 and December 31, 2012 with effect estimated from the beginning of the period. All other variables held constant, the consolidated income before tax would have increased by P0.9 billion and P1.2 billion for the periods ended June 30, 2013 and December 31, 2012 respectively. Conversely, if the interest rates decreased by the same percentage, consolidated income before tax would have been lower by the same amount.

8.2 Credit Risk

Generally, the Group's credit risk is attributable to trade and other receivable arising mainly from transactions with approved franchisees, installment receivables, rental receivables and other financial assets.

The Group maintains defined credit policies and continuously monitors defaults of customers and other counterparties, identified either individually or by group, and incorporate this information into its credit risk controls. Where available at a reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. Franchisees are subject to stringent financial, credit and legal verification process. In addition, accounts receivable are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant. The Group's policy is to deal only with creditworthy counterparties. In addition, for a significant portion of sales, advance payments are received to mitigate credit risk.

With respect to credit risk arising from the other financial assets of the Group, composed of cash and cash equivalents, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

Trade and other receivables that are past due but not impaired are as follows:

	<u>2013</u>	<u>2012</u>
Not more than 30 days	P 1,311,349	P 267,577
31 to 60 days	1,247,893	1,754,101
Over 60 days	<u>1,306,229</u>	<u>1,229,152</u>
	<u>P 3,865,471</u>	<u>P 3,250,830</u>

8.3 Liquidity Risk

The Group manages its liquidity needs by carefully monitoring scheduled debt servicing payments for long-term financial liabilities as well as cash outflows due in a day-to-day business. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on the basis of a rolling 30-day projection. Long-term liquidity needs for a 6-month and one-year period are identified monthly. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of loans, bonds, and preferred shares.

The Group maintains cash to meet its liquidity requirements for up to 60-day periods. Excess cash are invested in time deposits, mutual funds or short-term marketable securities. Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities and the ability to sell long-term financial assets. In addition, the Group regularly evaluates its projected and actual cash flows. It also continuously assesses conditions in the financial markets for opportunities to pursue fund raising activities, in case any requirements arise. Fund raising activities may include bank loans and capital market issues.

As at June 30, 2013, the Group's financial liabilities have contractual maturities which are presented below:

	Current		Non-current

See Notes 2.5 and 2.13 for a description of the accounting policies for each category of financial instrument. A description of the Group's risk management objectives and policies for financial instruments is provided in Note 8.

9.2 Fair Value Hierarchy

The hierarchy groups financial assets and liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial assets and liabilities. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the resource or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the financial asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

The breakdown of the Group's financial assets and liabilities measured at fair value in its consolidated statements of financial position as of June 30, 2013 and December 31, 2012 is as follows:
