<i>Title of Each Class</i>	<i>Number of Shares of Common Stock Outstanding and Amount of Debt Outstanding</i>
----------------------------	--

Common	10,269,827,979
---------------	-----------------------

10. *Are any or all of these securities listed on a Stock Exchange?* **Yes, on the Philippine Stock Exchange.**
11. (a) *AGI has filed all reports required to be filed by Section 17 of the SRC and SRC Rule 17 thereunder or Section 11 of the RSA and RSA Rule 11(a)-1 thereunder, and Sections 26 and 141 of The Corporation Code of the Philippines during the preceding twelve (12) months.*

(b) *AGI has been subject to such filing requirements for the past ninety (90) days.*

PART I – FINANCIAL INFORMATION

1. FINANCIAL STATEMENTS

Consolidated Statements of Financial Position
Consolidated Statements of Comprehensive Income
Consolidated Statements of Changes in Equity
Consolidated Statements of Cash Flows
Notes to Interim Consolidated Financial Statements
Schedule of Financial Soundness Indicators
Aging Schedule of Trade and Other Receivables Under Current Assets

The interim consolidated financial statements (ICFS) have been prepared in accordance with the Philippine Financial Reporting Standards (PFRS) and Philippine Accounting Standard 34, *Interim Financial Reporting*. As such, they do not include all of the information and disclosures required for full annual consolidated financial statements, and thus should be read in conjunction with the audited consolidated financial statements of the Group as at and for the year ended December 31, 2013 (ACFS). The accounting policies and methods used in the ICFS are consistent with those applied in ACFS, except for changes brought about by the adoption of new standards that become effective on January 1, 2014 (see Note 2 to the ICFS).

Accounting estimates, assumptions and judgments are used in preparing these statements; and while these are believed to be reasonable under the circumstances, actual results may ultimately differ from such estimates (see Note 3).

The ICFS comprise the financial statements of the Company and its subsidiaries, after elimination of material intercompany transactions. In addition, shares of stock of the Company acquired by any of these subsidiaries are recognized as treasury shares and these are presented at cost as a deduction in the consolidated statements of changes in equity. Any changes in their market values as recognized separately by the subsidiaries are likewise eliminated in full. Gain or loss on the sale of these treasury shares is presented as addition to or deduction from additional paid-in capital (APIC).

Business Segments

The Group is organized into five major business segments, which aptly correspond to its operating subsidiaries, namely Megaworld, Travellers, Emperador, GADC and GERI, which in turn represent the main products and services provided by the Group and the lines of business in which the Group operates, i.e. community township development and leasing, tourism-entertainment and gaming, manufacture and distribution of distilled spirits, integrated tourism estate development (see Note 4).

Please refer to Note 1 to the ICFS and ACFS for a comprehensive list of subsidiaries, associates and joint venture.

2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF INTERIM FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Key Performance Indicators

Presented below are the top five (5) key performance indicators:

<i>Amounts In Million Philippine Pesos</i>	2014	2013	Growth
REVENUES	31,230	30,266	3.2%
NET PROFIT	6,255	4,905	27.5%
NET PROFIT ATTRIBUTABLE TO OWNERS	3,943	3,566	10.6%
Net profit rate	20.0%	16.2%	
Attributable to owners of parent	12.6%	11.8%	
	3/31/14	12/31/13	
TOTAL ASSETS	336,366	332,400	
CURRENT ASSETS	194,393	197,690	
CURRENT LIABILITIES	49,071	50,585	
Return on investment/assets	0.02	.07	
Current ratio	3.96	3.91	
Quick ratio	2.55	2.62	

- Revenue growth – measures the percentage change in sales/revenues over a designated period of time. Performance is measured both in terms of amount and volume, where applicable.
- Net profit growth – measures the percentage change in net profit over a designated period of time
- Net profit rate– computed as percentage of net profit to revenues - measures the operating efficiency and success of maintaining satisfactory control of costs
- Return on investment [or capital employed] – the ratio of net profit to total assets - measures the degree of efficiency in the use of resources to generate net income
- Current ratio – computed as current assets divided by current liabilities – measures the ability of the business to meet its current obligations. To measure immediate liquidity, quick assets [cash, marketable securities, accounts receivables] is divided by current liabilities.

Results of Operations – First Three Months

The consolidated net profit for the first quarter climbed 28% year-on-year to P6.25 billion from P4.90 billion a year ago, while the portion net of minority interest improved by 11% to P3.94 billion from P3.57 billion a year ago.

Net profit to owners	57.0%	4.0%	44.0%	-24.7%	10.2%	-87.3%	10.6%

Amounts are in million Pesos. Numbers may not add up due to rounding off. The above follows grouping of accounts at AGI consolidated level, so revenues and costs and expenses may not tally the totals as separately reported by subsidiaries as there may be items reclassified from/to revenues to/from costs at AGI consolidated level (which is the case for the 2013 numbers for MEG, EMP and GERI). Net profit presented is after consolidation adjustments.

^aMEG also excluded the fair value gain it recorded for AGI shares and its share in net profits of Travellers and GERI.

In 2014, it reported P603.8 million gain on acquisition of a subsidiary.

^bRWM revenues are presented before taking out promotional allowance of P472 million and P710 million in 2014 and 2013, respectively; these are included under costs and expenses at AGI conso level.

Megaworld posted a net profit of P2.69 billion (including P604 million non-recurring gain) for the first quarter of 2014, 49% higher than the P1.81 billion for the same period in 2013 due to strong residential sales in its various townships, particularly in Newport City, Uptown Bonifacio, McKinley Hill and Eastwood City; and higher leasing income from its office and retail portfolio. Sales were also generated from The Sonoma, The Cambridge Village, The Rochester Gardens, Kasara Urban Resort Residences and Laguna Bel-Air projects of Empire East. Megaworld's rental income from office developments and lifestyle malls surged to a record of P1.7 billion, up 23% from P1.39 billion a year ago. Total revenues of the Megaworld, which include the Empire East and Suntrust brands, amounted to P9.94 billion this year, 22% higher than a year ago. The group posted P19.6 billion in reservation sales this year, which is 9% better than a year ago.

Emperador ended the first quarter of the year with net profit of P1.72 billion, a 19% jump from P1.45 billion a year ago, on the back of strong sales growth. Emperador reported revenues of P7.69 billion, up 17% from P6.60 billion a year ago, primarily due to growth in cases sold during the period. Costs and expenses, on the other hand, had a slower expansion of 15%. Advertising and promotions contracted from a year ago when Emperador Deluxe was introduced in the market.

Travellers posted a strong net profit of P1.72 billion for the first quarter, 73% higher than the P995 million it reported for the same period last year, as a result of its cost management initiatives. Gross gaming revenues contracted by 23% to P7.21 billion this quarter. All segments generally improved in volume except for VIP Overseas, which was affected by the difference in international calendar of activities. While the win rate had improved from fourth quarter 2013, it remained lower than a year ago. Total tables remained the same at 287, while slot machines increased to 1,853 (from 1,699) and ETG rose to 210 (from 100). Travellers recently got approval of additional gaming capacity based on its Phase 1 room count, which will bring the total gaming capacity to 420 tables and 4,148 combined gaming machines. Meanwhile, its hotel and food and beverage (F&B) also declined from a year ago, largely due to the strategy of using its hotel and F&B to increase customer engagement. Hotel occupancy rates for the first three months this year remained solid at a minimum of 85% in

all three hotels (Maxims, Marriott and Remington). Remington had additional 12 rooms this year, which bring its total rooms to 712; rooms at Marriott and Maxims remain the same at 342 and 172, respectively.

GADC ended the first quarter with total revenues of P4.36 billion, up 13% from P3.85 billion for the same period last year. This is primarily due to the opening of 37 new restaurants (23 company-owned, 13 franchised, 1 joint venture), reimagining of 45 existing restaurants, expansion of business extensions (delivery service, drive-thru, dessert centers, midnight hours and breakfast daypart), the introduction of new products (McSpicy chicken burger and rice meal, McDouble, re-launch of Cheeseburger Deluxe), and aggressive advertising and promotional campaigns to support Fries, Desserts, McSavers (Coffee and Sundae), McDelivery, McSaver Meals, and Breakfast. The 38 new restaurants contributed 8% to total system sales while business extensions comprise 22% of the total. There were 412 restaurants operating by the end of the quarter, as compared to 375 restaurants a year ago. Price increases were also strategically implemented in order to mitigate rising costs and to maintain the level of product quality. Impact of price adjustment to gross profit is an increase of 0.07% for 2014. Cost of sales and services went up by 19%, primarily due to cost of inventory which increased by 19% from higher foreign exchange rates and higher prices of raw materials. Supplies, transportation and crew labor costs also expanded from a year ago. As a result, net profit shrank to P171 million from P234 a year ago.

GERI reported net profit of P103 million for the first quarter of the year, up 27% from P81 million a year ago. Real estate sales came mainly from sale of lots in Newcoast Shophouse District, Newcoast Boutique Hotel and Newcoast Village in Boracay; Sta. Barbara Heights in Iloilo City; and Twin Lakes Domaine Le Jardin in Laurel, Batangas. Hotel revenues also grew from a year ago due to expansion of hotel operations in Boracay. Income from golf course maintenance provided incremental revenue.

The results of operations are further shown in the profit and loss accounts, as follows:

	2014	2013	Growth
REVENUES	31,230	30,266	3%
Sale of goods	15,006	12,639	19%
Consumer goods	7,762	6,402	21%
Revenues from real estate (RE) sales	7,245	6,237	16%
RE sales	5,865	5,023	17%
Interest income on RE sales	389	355	9%
Realized gross profit on RE sales	991	859	15%
Rendering of services	14,298	15,737	-9%
Gaming	7,210	9,409	-23%
Sales by company-operated			
quick-service restaurant	3,993	3,527	13%
Franchise revenues	311	285	9%
Rental income	1,720	1,509	14%
Other services	1,064	1,006	6%
Share in net profits of associates and joint ventures	1	0.5	156%
Finance and other income	1,925	1,889	2%
COSTS AND EXPENSES	23,710	24,219	-2%
Cost of goods sold	9,683	8,560	13%
Consumer goods sold	4,885	4,153	18%
RE sales	3,479	3,038	14%
Deferred gross profit on RE sales	1,319	1,369	-4%
Cost of services	6,286	7,062	-11%
Gaming	2,168	3,609	-40%
Company-operated quick-service restaurants	3,303	2,770	19%
Franchised restaurants	153	138	11%
Other services	662	545	21%
Other operating expenses	5,877	7,456	-21%

Finance costs and other charges	1,864	1,140	63%
TAX EXPENSE	1,266	1,142	11%
NET PROFIT	6,254	4,905	28%

Amounts in million pesos; numbers may not add up due to rounding off.

Revenues expanded by 3% because sale of goods (real estate, alcoholic beverages and snack products) jumped 19% while rendering of services (gaming, hotel, quick-service restaurants, rentals) dwindled by 9%, primarily due to 23% contraction of gaming revenues from where more than half of service revenues come from.

Costs and expenses decelerated by 2%, because costs of sales and services escalated at a slower rate of 2% and other operating expenses dropped by 21%, primarily from the effective cost management especially at RWM.

Finance and other income this year included the P604 million non-recurring gain from acquisition of a subsidiary by Megaworld and fair value gains of the Group on marked-to-market securities, which offset the effect of the reversal in foreign currency exchange gains; thus finance and other income increased by 2% year-on-year. **Finance costs and other charges** swelled by 63% as compared to a year ago due to the foreign currency losses incurred by Megaworld, Travellers and Emperador plus the additional interest expended by Megaworld this year for the \$250 million bond issued in April 2013, which carries a coupon of 4.25%.

Income tax increased by 11% this year as compared to a year ago, which is attributed to higher taxable income resulting in the higher tax expended by Emperador, Megaworld and GERI.

Earnings before interest, taxes, depreciation and amortizations (EBITDA), computed as net profit before non-recurring income, share in net profits of associates and joint ventures, income taxes, interest expense, depreciation, amortizations and impairment provisions, amounted to P9.0 billion as compared to P8.2 billion a year ago, or 11% improvement year-on-year.

Financial Condition

Consolidated total assets amounted to P336.4 billion at end of the interim period from P332.4 billion at beginning of year. The Group is strongly liquid with current assets exceeding current liabilities 4.0times. Current assets amounted to P194.4 billion while current liabilities amounted to P49.1 billion at end of the interim period.

Cash and cash equivalents dipped by P8.6 billion or 9% to end at P86.4 billion from P95.0 billion at the beginning of the year, primarily due to Travellers' loan payments of P4.3 billion and US\$3.2 million, Emperador's investment in a Spanish associate, and Megaworld's capital expenditure and business expansion activities. Cash flows from operating, financing and investing activities during the period were presented in the interim consolidated statements of cash flows.

Current trade and other receivables went up by P4.5 billion or 15% primarily due to higher real estate sales during the period and the additional downpayments paid by Travellers and Emperador to its suppliers/contractors in connection with the ongoing expansion works at RWM and new distillery plant in Batangas. Noncurrent trade and other receivables increased by P1.5 billion or 6% due to higher real estate reservations/sales booked during the period.

Inventories rose by P1.9 billion or 4% due to additional real estate lots, condominium units and resort shares completed and put up for sale. There was also higher brandy inventory in preparation for the coming summer months, which is a season of festivities when demand is stronger. New casino operating supplies such as gaming cards, dice and seals were purchased during the period.

Financial assets at fair value through profit or loss dropped by P3.0 billion or 40% due to disposal of investments in marketable debt securities during the interim period.

Property development costs went up by P1.6 billion of 14% due to new real estate development projects.

Land for future development went down by P1.5 billion or 12% due to reclassification to ongoing development costs.

Investment property enlarged by P4.4 billion or 16% from property owned by La Fuerza Inc., a former associate and now a newly-acquired subsidiary of Megaworld, and the completion of additional properties for lease.

Investments in and advances to associates and other related parties surged by P2.7 billion or 52% due primarily to the acquisition of 50% equity in an Spanish associate by Emperador, which in turn is reduced by the amount of investment in a former associate of Megaworld which becomes a subsidiary during the period (the investment is closed).

Deferred tax assets decreased by P0.2 billion or 26% as a result of changes in taxable temporary differences at GERI.

Other current assets increased by P0.2 billion or 5% due to Emperador's prepaid advertising cost of P0.2 billion. Other non-current assets went up by P0.3 billion or 13% primarily due to additional deferred input vat of Emperador and guarantee deposits of Megaworld.

Both current and non-current interest-bearing loans dipped by P2.2 billion or 58% and P3.1 billion or 33%, respectively, due to loan settlements made by Travellers and principal payments by AGI and Megaworld. After its payments, Travellers now has P0.2 billion loan balance in its balance sheet, which is not yet due within a year

Income tax payable increased by P0.6 billion or 72% due to higher tax liabilities of Emperador and GADC.

Liquidity and Capital Resources

The consolidated balance sheet showed strong liquidity with current assets exceeding current liabilities 4.0times. Total-liabilities-to-equity ratio is at 0.71:1 while debt-to-equity ratio is at 0.33:1. Assets exceeded liabilities 2.4 times, and equity 1.7times.

Working capital was sourced internally from operations during the period. In addition, the Group has net cash position that will enable it to pursue strategic activities. It may also from time to time seek other sources of funding, if necessary, which may include debt or equity financings, depending on its financing requirement and market conditions.

<i>Amounts in Million Pesos</i>	<u>March 31, 2014</u>	<u>December 31, 2013</u>
Cash and equivalents	86,367	94,977
Interest-bearing debt	64,668	69,504
Net cash	21,698	25,473
Cash and cash equivalents to interest-bearing debt	134%	137%
Interest-bearing debt to total equity	33%	37%

Prospects for the future

AGI remains concentrated on its business programs. Management will continue to adopt prudent measures to ensure financial sustainability and look for new opportunities that will enhance the overall profitability of the group while maintaining the established markets.

In 2014, all the business segments are expected to grow revenues and profits in line with targets.

Others

Events that occurred after the end of the interim period were summarized in Note 16 to the ICFS, *Subsequent Events*.

There were no other known material events subsequent to the end of the interim period that would have a material impact in the interim period.

There are no other known trends or demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in the Company's liquidity increasing or decreasing in any material way. The Company does not have nor anticipate having any cash flow or liquidity problems within the year. AGI and its subsidiaries are not in default or breach of any note, loan, lease or other indebtedness or financing arrangement requiring it to make payments.

There are no other known events that will trigger direct or contingent financial obligation that is currently considered material to the Company, including any default or acceleration of an obligation. There are no other material off-balance sheet transactions, arrangements, obligations, and other relationships with unconsolidated entities or other persons created during the reporting period.

There are no other known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations. There are also no known events that will cause material change in the relationship between costs and revenues.

There are no other significant elements of income or loss that did not arise from continuing operations.

There were no other material issuances, repurchases or repayments of debt and equity securities.

The business has no seasonal aspects that had a material effect on the financial condition and results of operations of the Group.

ALLIANCE GLOBAL GROUP, INC.
SCHEDULE OF FINANCIAL SOUNDNESS INDICATORS
March 31, 2014

	3/31/14	12/31/13
Current ratio	3.96	3.91
Quick ratio	2.55	2.62
Liabilities-to-equity ratio	0.71	0.75
Interest-bearing debt to total capitalization ratio	0.37	0.39
Asset -to-equity ratio	1.71	1.75
Interest rate coverage ratio	719%	749%
Net profit margin	20.03%	16.20%
Return on assets	1.86%	1.48%
Return on equity/investment	3.17%	2.58%
Return on equity/investment of owners	3.53%	3.31%

LIQUIDITY RATIOS measure the business' ability to pay short-term debt.

Current ratio - computed as current assets divided by current liabilities

Quick ratio - computed a cash, marketable securities, accounts receivable divided by current liabilities.

SOLVENCY RATIOS measure the business' ability to pay all debts, particularly long-term debt.

Liabilities-to-equity ratio - computed as total liabilities divided by stockholders'equity.

Interest-bearing debt to total capitalization ratio - computed as interest-bearing debt divided by interest-bearing debt + stockholder's equity attributable to controlling interest

ASSET-TO-EQUITY RATIOS measure financial leverage and long-term solvency. It shows how much of the assets are owned by the company. It is computed as total assets divided by stockholders'equity.

INTEREST RATE COVERAGE RATIOS measure the business' ability to meet its interest payments. It is computed as profit before income tax and interest expense ("EBIT") divided by interest.

In the computation, non-recurring gain is excluded from EBIT.

PROFITABILITY RATIOS

Net margin - computed as net profit divided by revenues

Return on assets - net profit divided by total assets

Return on investment - net profit divided by total stockholders' equity

Return on investment of equity owners- net profit attributable to owners of the parent divided by equity attributable to ownersof the parent company

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2014
(With Comparative Figures as of December 31, 2013)
(Amounts in Philippine Pesos)
(Unaudited)

1. CORPORATE INFORMATION

Alliance Global Group, Inc. (the Company, Parent Company, or AGI) was registered with the Philippine Securities and Exchange Commission (SEC) on October 12, 1993 and began operations in 1994 as a glass-container manufacturer. On March 12, 1999, it obtained approval from the SEC to broaden its primary business into that of a holding company. Given a wider scope of business, AGI immediately diversified its investment holdings and on April 19, 1999, AGI listed its shares in the Philippine Stock Exchange (PSE). Currently, the Company and its subsidiaries and associates (collectively referred to as the Group) operate businesses in real estate development, tourism-entertainment and gaming, food and beverage, and quick service restaurant under the following entities (see Note 4):

Explanatory notes:

- (a) Megaworld is 44% directly owned by AGI and 21% owned through other subsidiaries (NTLPI and FCI). Effective ownership over Megaworld increased due to additional subscription by AGI
- (b) Foreign subsidiaries operating under the laws of the Cayman Islands
- (c) Foreign subsidiaries operating under the Business Companies Act of the British Virgin Islands (BVI)
- (d) Newly acquired subsidiaries of Megaworld in 2013
- (e) Subsidiaries of EELHI
- (f) AGI and Megaworld directly owns 49% and 51%, respectively
- (g) A subsidiary of AGI through 60% and 40% direct ownership of EELHI and FCI, respectively
- (h) A subsidiary of Megaworld in 2011 and became an associate in 2012; Became a subsidiary in 2013, through Megaworld's increase in ownership interest in EELHI
- (i) Effective ownership over GERI increased due to additional subscription by Megaworld
- (j) A subsidiary of AGI through 60% and 40% direct ownership of GERI and Megaworld, respectively
- (k) Newly acquired subsidiary of GADC
- (l) Unincorporated joint ventures of GADC in 2013; Became a subsidiary in 2014 through additional investment by GADC
- (m) Formerly a jointly-controlled entity. As of the beginning of 2012, AGI has the power to govern the financial and operating policies of Travellers. As such, after considering the provisions of applicable accounting standards, Travellers qualified as a subsidiary in 2012 and, accordingly, the accounts of Travellers have been consolidated into the Group's financial statements beginning 2012. Travellers is 18% directly owned by AGI and 22%, 9%, and 5% through Adams, Megaworld and FCI, respectively.
- (n) Foreign subsidiaries operating under the laws of United States of America
- (o) Subsidiaries of FCI
- (p) A subsidiary of AGI through 50/50 ownership of Travellers and Megaworld
- (q) Incorporated in 2013. Effective ownership is through 20% direct ownership, 6% through 10% ownership of Megaworld, 4% through 5% ownership of FCI and 15% through 25% ownership of Adams
- (r) Incorporated in 2013; Wholly owned subsidiaries of RWBCI
- (s) Associates of Megaworld
- (t) Subsidiaries of SHDI, an associate of Megaworld
- (u) Associates of GERI; GERI gained control over OPI in 2012, hence OPI was consolidated beginning 2012
- (v) A foreign associate operating in the BVI; AGPL was disposed in 2013
- (w) An associate of Megaworld in 2013; Became a subsidiary through additional stock subscription by Megaworld
- (x) Became a subsidiary of AGI in 2013 through subscription in the increase in the subsidiary's capital stock; and as a condition to the subscription, AGI sold its 100% interest in EDI to EMP
- (y) A foreign associate under EIL's Grupo Emperador Spain, S.L. and operating under the laws of Spain

The Company, its subsidiaries, associates and jointly-controlled entity are incorporated and operating in the Philippines, except for such foreign subsidiaries as identified in the preceding table (see explanatory notes b,c,n,v and y above).

AGI's shares of stock and those of Megaworld, EMP, Travellers, GERI, EELHI and SHDI are listed in and traded through the PSE.

The principal activities of the Group are further described in Note 4.

The Company's registered office and primary place of business is located at the 7th Floor, 1880 Eastwood Avenue, Eastwood City CyberPark, 188 E. Rodriguez, Jr. Avenue, Bagumbayan, Quezon City.

The Board of Directors (BOD) approved on May 20, 2014, the release of the interim consolidated financial statements (ICFS) of the Group for the three months ended March 31, 2014 (including the comparative financial statements as of December 31, 2013 and for the three months ended March 31, 2013).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 *Basis of Preparation of Interim Consolidated Financial Statements*

(a) *Compliance with Interim Financial Reporting Standard*

These interim consolidated financial statements (ICFS) have been prepared in accordance with Philippine Accounting Standard (PAS) 34, *Interim Financial Reporting*. They do not include all of the information required in annual financial statements in accordance with Philippine Financial Reporting Standards (PFRS), and should be read in conjunction with the Group's audited consolidated financial statements (ACFS) as of and for the year ended December 31, 2013.

(b) *Application of PFRS*

The significant accounting policies and methods of computation used in the preparation of these ICFS are consistent with those applied in the ACFS as of and for the year ended December 31, 2013, except for the application of standards that became effective on January 1, 2014 as discussed in Note 2.3.

There are new PFRS, annual improvements and interpretations to the existing standards that are effective for periods subsequent to 2014 but were not adopted early for the preparation of the ICFS. The ICFS, therefore, do not reflect the impact of any adoption of these new PFRS, annual improvements and interpretations to existing standards effective for periods subsequent to 2014.

(c) *Functional and Presentation Currency*

The consolidated financial statements are presented in Philippine pesos, the Company's functional and presentation currency, and all values represent absolute amounts except when otherwise indicated.

Items included in the consolidated financial statements of the Group are measured using the Company's functional currency (see Note 2.18).

(d) Presentation of Interim Consolidated Financial Statements

The presentation of the ICFS is consistent with the most recent ACFS presentation, except for the amendments introduced by the new accounting standards mentioned in Note 2.3. Regrouping of certain accounts in the comparative prior period presented was made to conform to the current period's presentation so that comparability is not impaired.

The Group presents all items of income and expense in a single consolidated statement of comprehensive income.

2.2 Basis of Consolidation

The Company obtains and exercises control through voting rights. The Group's ICFS comprise the financial statements of the Company and its subsidiaries, as enumerated in Note 1, as of March 31, 2014 and December 31, 2013 and for the three months ended March 31, 2014 and 2013, after the elimination of material intercompany transactions. All intercompany balances and transactions with subsidiaries, including income, expenses, dividends and unrealized profits and losses from intercompany transactions that are recognized in assets are eliminated in full. Intercompany losses that indicate impairment are recognized.

In addition, shares of stock of the Company acquired by any of these subsidiaries are recognized as treasury shares and these are presented as deduction in the interim consolidated statement of changes in equity at cost. Any changes in their market values as recognized separately by the subsidiaries are likewise eliminated in full. Gain or loss on the sale of these treasury shares is presented as addition to or deduction from additional paid-in capital (APIC).

The Group accounts for its investments in subsidiaries and associates, interests in joint ventures, and transactions with non-controlling interest as follows:

(a) Investments in Subsidiaries

Subsidiaries are entities (including structured entities) over which the Group has control. The Group controls an entity when it is exposed, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity.

Subsidiaries are consolidated from the date the Company obtains control until such time that such control ceases. The Company reassesses whether or not it controls an entity if facts and circumstances indicate that there are changes to one or more of the three elements of controls indicated above. Accordingly, entities are deconsolidated from the date that control ceases. The acquisition method is applied to account for acquired subsidiaries (see Note 2.10).

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any existing equity interest in the acquiree over the acquisition-date fair value of identifiable net assets acquired is recognized as goodwill. If the consideration transferred is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognized directly as gain in profit or loss. (See Note 2.11).

(b) *Investments in Associates*

Associates are those entities over which the Group is able to exert significant influence but not control and which are neither subsidiaries nor interests in a joint venture. Investments in associates are initially recognized at cost and subsequently accounted for using the equity method.

All subsequent changes to the ownership interest in the equity of the associates are recognized in the Group's carrying amount of the investments. Changes resulting from the profit or loss generated by the associates are credited or charged against the Share in Net Profits (Losses) of Associates and Joint Ventures account in the interim consolidated statements of comprehensive income. These changes include subsequent depreciation, amortization and impairment of the fair value adjustments of the associate's assets and liabilities.

Impairment loss is provided when there is objective evidence that the investment in an associate will not be recovered (see Note 2.19).

Changes resulting from other comprehensive income of the associates or items that have been directly recognized in the associate's equity, for example, resulting from the associate's accounting for available-for-sale (AFS) financial assets, are recognized in the interim consolidated other comprehensive income or equity of the Group, as applicable.

Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

(c) *Interests in Joint Ventures*

Interest in a joint venture is accounted using the equity method. Under the equity method, the interest is initially recognized at cost and the carrying amount is increased or decreased to recognize the Company's share in the profit or loss of the joint venture after the date of acquisition. Unrealized gains arising from transactions with jointly controlled entity are eliminated to the extent of the Company's interest in joint venture against the related investment. Unrealized losses are eliminated similarly but only to the extent that there is no evidence of impairment of the asset transferred.

(d) *Transactions with Non-controlling Interest*

The Group's transactions with non-controlling interest that do not result in loss of control are accounted for as equity transactions – that is, as transaction with the owners of the Group in their capacity as owners. The difference between the fair value of any consideration paid and the relevant share acquired of the carrying value of the net assets of the subsidiary is recognized in equity. Disposals of equity investments to non-controlling interest result in gains and losses for the Group that is also recognized in consolidated equity.

2.3 Adoption of New and Amended PFRS

(a) *Effective in 2014 that are Relevant to the Group*

In 2014, the Group adopted the following amendments to PFRS that are relevant to the Group and effective for consolidated financial statements for the annual period beginning on or after January 1, 2014:

PAS 19 (Amendment)	:	Employee Benefits: Defined Benefit Plans – Employee Contributions
PAS 32 (Amendment)	:	Financial Instruments: Presentation – Offsetting Financial Assets and Financial Liabilities
PAS 36 (Amendment)	:	Impairment of Asset – Recoverable Amount Disclosures for Non-financial Assets
PAS 39 (Amendment)	:	Financial Instruments: Recognition and Measurement – Novation of Derivatives and Continuation of Hedge Accounting
PFRS 10, 12 and PAS 27 (Amendments)	:	Investment Entities

Discussed below are relevant information about these amended standards.

- (i) PAS 19 (Amendment), *Employee Benefits – Defined Benefit Plans – Employee Contributions* (effective from January 1, 2014). The amendment clarifies that if the amount of the contributions from employees or third parties is dependent on the number of years of service, an entity shall attribute the contributions to periods of service using the same attribution method (i.e., either using the plan's contribution formula or on a straight-line basis) for the gross benefit. Management has determined that this amendment has no significant impact on the Group's ICFS.

- (ii) PAS 32 (Amendment), *Financial Instruments: Presentation – Offsetting Financial Assets and Financial Liabilities* (effective from January 1, 2014). The amendment provides guidance to address inconsistencies in applying the criteria for offsetting financial assets and financial liabilities. It clarifies that a right of set-off is required to be legally enforceable, in the normal course of business; in the event of default; and in the event of insolvency or bankruptcy of the entity and all of the counterparties. The Group determined that the amendment has no significant impact on its ICFS as the Group is not setting off its financial assets and financial liabilities.
 - (ii) PAS 36 (Amendment), *Impairment of Assets – Recoverable Amount Disclosures for Non-financial Assets* (effective from January 1, 2014). The amendment clarifies that the requirements for the disclosure of information about the recoverable amount of assets or cash-generating units is limited only to the recoverable amount of impaired assets that is based on fair value less cost of disposal. Management has determined that this amendment has no significant impact on the Group's ICFS.
 - (iii) PAS 39 (Amendment), *Financial Instruments: Recognition and Measurement – Novation of Derivatives and Continuation of Hedge Accounting* (effective from January 1, 2014). The amendment provides some relief from the requirements on hedge accounting by allowing entities to continue the use of hedge accounting when a derivative is novated to a clearing counterparty resulting in termination or expiration of the original hedging instrument as a consequence of laws and regulations, or the introduction thereof. As the Group does not apply hedge accounting on its derivative transactions, hence the amendment does not impact the ICFS.
 - (iv) PFRS 10, 12 and PAS 27 (Amendments) - *Investment Entities* (effective from January 1, 2014). The amendments define the term “investment entities,” provide supporting guidance, and require investment entities to measure investments in the form of controlling interest in another entity, at fair value through profit or loss. Management assessed that these amendments have no material impact on the Group's ICFS.
- (b) *Effective in 2014 that is not Relevant to the Group*

The International Financial Reporting Interpretations Committee (IFRIC) 21, *Leases*, which is mandatory for accounting periods beginning on or after January 1, 2014 is determined not relevant to the Group's ICFS.

(c) *Effective Subsequent to 2014 but not Adopted Early*

There are new PFRS, annual improvements and interpretation to existing standards that are effective for periods subsequent to 2014. Management has initially determined the following pronouncements to be relevant to its ICFS, and which the Group will apply in accordance with their transitional provision, but not adopted early:

- (i) PFRS 9, *Financial Instruments: Clarification and Measurement*. This is the first part of a new standard on financial instruments that will replace PAS 39, *Financial Instruments: Recognition and Measurement*, in its entirety. The first phase of the standard was issued in November 2009 and October 2010 and contains new requirements and guidance for the classification, measurement and recognition of financial assets and financial liabilities. In addition, PFRS 9 allows entities to make an irrevocable election to present subsequent changes in the fair value of an equity instrument that is not held for trading in other comprehensive income.

In November 2013, the International Accounting Standards Board (IASB) has published amendments to International Financial Reporting Standard (IFRS) 9 that contain new chapter and model on hedge accounting that provides significant improvements principally by aligning hedge accounting more closely with the risk management activities undertaken by entities when hedging their financial and non-financial risk exposures. The amendment also includes the removal of the January 1, 2015 mandatory effective date of IFRS 9.

To date, the remaining chapter of IFRS 9 and PFRS 9 dealing with impairment methodology is still being completed. Further, the IASB is currently discussing some limited modifications to address certain application issues regarding classification of financial assets and to provide other considerations in determining business model.

The Group does not expect to implement and adopt PFRS 9 until its effective date. In addition, management is currently assessing the impact of PFRS 9 on the interim consolidated financial statements of the Group and it will conduct a comprehensive study of the potential impact of this standard prior to its mandatory adoption date to assess the impact of all changes.

- (ii) Philippine IFRIC 15, *Agreements for Construction of Real Estate*. This Philippine interpretation is based on IFRIC interpretation issued by the IASB in July 2008 effective for annual periods beginning on or after January 1, 2009. The adoption of this interpretation in the Philippines, however, was deferred by the FRSC and SEC after giving due considerations on various application issues and the implication on this interpretation of the IASB's on-going revision of the Revenue Recognition standard. This interpretation provides guidance on how to determine whether an agreement for the construction of real estate is within the scope of PAS 11, *Construction Contracts*, or PAS 18, *Revenue*, and accordingly, when revenue from the construction should be recognized. The main expected change in practice is a shift from recognizing revenue using the percentage of completion method (i.e., as a construction progresses, by reference to the stage of completion of the development) to recognizing revenue at completion upon or after delivery. The Group is currently evaluating the impact of this interpretation on its consolidated financial statements in preparation for its adoption when this becomes mandatorily effective in the Philippines.
- (iii) Annual Improvements to PFRS. Annual improvements to PFRS (2010-2012 Cycle) and PFRS (2011-2013 Cycle) made minor amendments to a number of PFRS, which are effective for annual period beginning on or after July 1, 2014. Among those improvements, the following amendments are relevant to the Group but management does not expect a material impact on the Group's consolidated financial statements:

Annual Improvements to PFRS (2010-2012 Cycle)

- PAS 16 (Amendment), *Property, Plant and Equipment* and PAS 38 (Amendment), *Intangible Assets* (effective July 1, 2014). The amendments clarify that when an item of property, plant and equipment, and intangible assets is revalued, the gross carrying amount is adjusted in a manner that is consistent with a revaluation of the carrying amount of the asset.
- PAS 24 (Amendment), *Related Party Disclosures* (effective July 1, 2014). The amendment clarifies that an entity providing key management services to a reporting entity is deemed to be a related party of the latter. It also requires and clarifies that the amounts incurred by the reporting entity for key management personnel services that are provided by a separate management entity should be disclosed in the consolidated financial statements and not the amounts of compensation paid or payable by the key management entity to its employees or directors.
- PFRS 13 (Amendment), *Fair Value Measurement*. The amendment, though a revision only in the basis of conclusion of PFRS 13, clarifies that issuing PFRS 13 and amending certain provisions of PFRS 9 and PAS 39 related to discounting of financial instruments, did not remove the ability to measure short-term receivables and payables with no stated interest rate on an undiscounted basis, when the effect of not discounting is immaterial.

Annual Improvements to PFRS (2011-2013 Cycle)

- PFRS 13 (Amendment), *Fair Value Measurement*. The amendment clarifies that the scope of the exception for measuring the fair value of a group of financial assets and financial liabilities on a net basis (the portfolio exception) applies to all contracts within the scope of, and accounted for in accordance with, PAS 39 or PFRS 9, regardless of whether they meet the definitions of financial assets or financial liabilities as defined in PAS 32.
- PAS 40 (Amendment), *Investment Property*. The amendment clarifies the interrelationship of PFRS 3, *Business Combinations*, and PAS 40, in determining the classification of property as an investment property or owner-occupied property, and explicitly requires entity to use judgment in determining whether the acquisition of an investment property is an acquisition of an asset or a group of asset, or a business combination in reference to PFRS 3.

2.4 Financial Assets

Financial assets are assigned to the different categories by management on initial recognition, depending on the purpose for which the investments were acquired.

The financial asset categories currently relevant to the Group are financial assets at FVTPL, loans and receivables and AFS financial assets.

(a) *Financial Assets at FVTPL*

Financial assets at fair value through profit or loss (FVTPL) are measured at fair value, and changes therein are recognized in consolidated profit or loss. Financial assets (except derivatives and financial instruments originally designated as financial assets at FVTPL) may be reclassified out of FVTPL category if they are no longer held for the purpose of being sold or repurchased in the near term.

The Group's financial assets included in this category consist mainly of investments in marketable debt and equity securities, and derivative assets.

(b) *Loans and Receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are subsequently measured at amortized cost using the effective interest method, less impairment loss, if any.

The Group's financial assets categorized as loans and receivables are presented as Cash and Cash Equivalents, Trade and Other Receivables (except Advances to Contractors and Suppliers), Advances to Associates and Other Related Parties (included under Investments in and Advances to Associates and Other Related Parties account), Time Deposits (included under Other Current Assets account) and Refundable Security Deposits (included under Other Non-current Assets account).

(c) *AFS Financial Assets*

This category includes non-derivative financial assets that are either designated to this category or do not qualify for inclusion in any of the other categories of financial assets. All financial assets within this category are subsequently measured at fair value. Gains and losses from changes in fair value are recognized in other comprehensive income, net of any income tax effects, and are reported as part of the Revaluation Reserves account in consolidated equity.

The Group's AFS financial assets include investments in marketable equity securities where the Group held no significant influence, shares that are not listed in the stock exchange and investments in marketable debt securities designated as AFS by management at initial recognition.

For investments that are actively traded in organized financial markets, fair value is determined by reference to exchange-quoted market bid prices at the close of business on the reporting period. For investments where there is no quoted market price, fair value is determined by reference to the current market value of another instrument which is substantially the same or is calculated based on the expected cash flows of the underlying net asset base of the investment.

Non-compounding interest, dividend income and other cash flows resulting from holding financial assets are recognized in consolidated profit or loss when earned, regardless of how the related carrying amount of financial assets is measured.

A financial asset is reported net of financial liability in the interim consolidated statement of financial position when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

The financial assets are derecognized when the contractual rights to receive cash flows from the financial instruments expire, or when the financial assets and all substantial risks and rewards of ownership have been transferred.

2.5 Inventories

Inventories are valued at the lower of cost and net realizable value (NRV). Cost is determined using weighted average method, except for food, paper, and promotional items which use the first-in, first-out method.

NRV is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. NRV of raw materials, spare parts and other operating supplies is the current replacement cost.

Cost of Real Estate includes costs incurred for development and improvement of the properties and borrowing costs on loans directly attributable to the projects which were capitalized during construction (see Note 2.16). Accounting policies for real estate development transactions are discussed in more detail in Note 2.6.

2.6 Real Estate Transactions

Acquisition costs of raw land intended for future development, including other costs and expenses incurred to effect the transfer of title of the property to the Group, are charged to the Land for Future Development account. These costs are reclassified to Property Development Costs account when the development of the property starts. Related property development costs are then accumulated in this account. Borrowing costs on certain loans, if any, incurred during the development of the real estate properties are also capitalized by the Group as part of Property Development Costs (see Note 2.16). Once a revenue transaction occurs on a per project basis, up to the stage the unit is sold, the related property development costs are reclassified to Real Estate for Sale classified under Inventories account (see Note 2.5) in the consolidated statement of financial position.

The cost of real estate property sold before completion of the development, if any, is determined based on the actual costs incurred to date plus estimated costs to complete the development of the property. The estimated expenditures for the development of sold real estate property, as determined by the project engineers, are presented as part of Cost of Goods Sold in the interim consolidated statement of comprehensive income with a corresponding credit to the liability account, Reserve for Property Development account.

Costs of properties and projects accounted for as Land for Future Development Costs, Property Development Costs and Real Estate for Sale are assigned using specific identification of their individual costs. These properties and projects are valued at the lower of cost and NRV. NRV is the estimated selling price in the ordinary course of business, less estimated costs to complete and the estimated costs necessary to make the sale.

The Group recognizes the effect of revisions in the total project cost estimates in the year in which these changes become known. Any impairment loss from a real estate project is charged to operations during the period in which the loss is determined.

2.7 Other Assets

Other assets presented either under current or non-current assets classification in the consolidated statement of financial position pertain to other resources controlled by the Group as a result of past events. They are recognized in the ICFS when it is probable that the future economic benefits will flow to the entity and the asset has a cost or value that can be measured reliably.

2.8 Property, Plant and Equipment

Property, plant and equipment, except land, are stated at cost less accumulated depreciation, amortization and any impairment in value. As no finite useful life for land can be determined, the related carrying amount is not depreciated. Land held for use in production or administration is stated at cost less any impairment in value.

Depreciation is computed on the straight-line basis over the estimated useful lives of the assets as follows:

Buildings and land improvements	5 to 40 years
Condominium units	10 to 25 years
Machinery and equipment	2 to 12 years
Fixtures and other equipment	3 to 10 years
Transportation equipment	3 to 10 years

Leasehold improvements are amortized over the life of the assets of 5 to 40 years or the term of the lease, whichever is shorter.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (see Note 2.19).

Fully depreciated and amortized assets are retained in the accounts until they are no longer in use and no further charge for depreciation and amortization is made in respect of those assets.

2.9 Investment Property

Properties held for lease under operating lease agreements, which comprise mainly of land, buildings and condominium units, are classified as Investment Property and are carried at cost less accumulated depreciation and any impairment in value (see Note 2.19).

Depreciation of investment property (excluding land) is computed using the straight-line method over the estimated useful lives of the assets ranging from 5 to 50 years.

2.10 Business Combinations

Business acquisitions are accounted for using the acquisition method of accounting. The cost of an acquisition is measured at the aggregate of the fair values, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognized in profit or loss in the consolidated statement of comprehensive income as incurred.

Where appropriate, the cost of acquisition includes any asset or liability resulting from a contingent consideration arrangement, measured at its fair value at the date of acquisition.

Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognized in accordance with PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, either in consolidated profit or loss or to consolidated other comprehensive income. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

Gains and losses on the disposal of an interest in a subsidiary include the carrying amount of the related goodwill (see Note 2.11).

2.11 Intangible Assets

Intangible assets include goodwill, trademarks, leasehold rights and computer software. Except goodwill, all other intangible assets have finite lives and are carried at cost less accumulated amortization and any impairment in value. The costs of trademarks and computer software are amortized over the estimated useful life of 10 and 3 years, respectively, while leasehold rights are over the term of the lease. Intangible assets are subject to impairment testing at least annually. Any impairment loss is recognized immediately in consolidated profit or loss and is not subsequently reversed (see Note 2.19).

Negative goodwill which is the excess of the Group's interest in the net fair value of net identifiable assets acquired over acquisition cost is recognized directly to income. On disposal of a subsidiary, the attributable amount of goodwill is included in the determination of the consolidated profit or loss on disposal.

Costs associated with maintaining computer software and any costs associated with research activities are recognized as expense in consolidated profit or loss as incurred.

2.12 Financial Liabilities

The categories of financial liabilities relevant to the Group are more fully described below.

(a) Financial Liabilities at FVTPL

Financial liabilities are classified in this category if they are held-for-trading or derivative transactions that are not accounted for as accounting hedges, or when the Group elects to designate a financial liability under this category.

The Group occasionally uses derivative financial instruments, such as foreign exchange forward contracts and interest rate swaps. The Group's derivative instruments provide economic hedges under the Group's policies but are not designated as accounting hedges. Consequently, any gains or losses arising from changes in fair value are taken directly to net profit or loss for the period. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative, which are presented under the Other Assets or Other Liabilities (current and non-current) account in the consolidated statements of financial position.

(b) Financial Liabilities at Amortized Costs

This category pertains to financial liabilities that are not held-for-trading or not designated as FVTPL upon inception of the liability. These include liabilities arising from operations or borrowings.

Financial liabilities, which include Interest-bearing Loans, Bonds Payable, Trade and Other Payables (except tax related payables), Advances from Related Parties, Redeemable Preferred Shares, Security Deposits and Payable to McDonald's Restaurant Operations, Inc. (MRO) under Stock Option Plan are recognized when the Group becomes a party to the contractual agreements of the instrument.

All interest-related charges incurred on financial liability are recognized as an expense in profit or loss under the caption Finance Costs and Other Charges in the interim consolidated statement of comprehensive income.

Dividend distributions to shareholders, if any, are recognized as financial liabilities when the dividends are declared by the BOD.

Financial liabilities are classified as current liabilities if payment is due to be settled within one year or less after the end of the reporting period (or in the normal operating cycle of the business, if longer), or the Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the end of the reporting period. Otherwise, these are presented as non-current liabilities.

2.13 Provisions and Contingencies

Provisions are recognized when present obligations will probably lead to an outflow of economic resources and they can be estimated reliably even if the timing or amount of the outflow may still be uncertain. A present obligation arises from the presence of a legal or constructive commitment that has resulted from past events.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

In those cases where the possible outflow of economic resource as a result of present obligations is considered improbable or remote, or the amount to be provided for cannot be measured reliably, no liability is recognized in the consolidated financial statements. Similarly, possible inflows of economic benefits to the Group that do not yet meet the recognition criteria of an asset are considered contingent assets, hence, are not recognized in the consolidated financial statements. On the other hand, any reimbursement that the Group can be virtually certain to collect from a third party with respect to the obligation is recognized as a separate asset not exceeding the amount of the related provision.

2.14 Equity

Capital stock represents the nominal value of shares that have been issued.

APIC includes any premiums received on the issuance or reissuance of capital stock. Any transaction costs associated with such issuances of shares are deducted from APIC, net of any related income tax benefits. Excess of proceeds over acquisition cost of treasury shares is also added to APIC.

Treasury shares are AGI shares reacquired by the Company but not cancelled or AGI shares held by subsidiaries for investment purposes. These are carried at acquisition cost (see Note 2.2).

Revaluation reserves represent unrealized fair value gains or losses on AFS financial assets pertaining to cumulative mark-to-market valuations [see Note 2.4(c)], share in other comprehensive income of associates and joint ventures attributable to the Group, and actuarial gains or losses from remeasurement of retirement benefit obligations.

Accumulated translation adjustments represent the translation adjustments resulting from the conversion of foreign currency denominated financial statements of certain subsidiaries into the Group's presentation currency (see Note 2.18).

Dilution gain or loss represents the difference between the book value per share in an investee versus the investee's offer price at the time pre-emptive rights are exercised. This also includes the Company's share in previous period's profit (loss) as a result of the current increase (decrease) in equity ownership over its subsidiaries. Dilution gain or loss is recognized on investments of which the Company continues to exercise control.

Share options represent the value of share options during vesting period upon recognition of share-based remuneration expense in profit or loss.

Retained earnings represent all current and prior period results of operations as reported in the profit and loss section of the interim consolidated statement of comprehensive income, reduced by the amount of dividends declared.

2.15 Revenue and Expense Recognition

Revenue is recognized to the extent that the revenue can be reliably measured by reference to the fair value of consideration received or receivable by the Group; it is probable that future economic benefits will flow to the Group; and the costs incurred or to be incurred can be measured reliably. In addition, the following specific recognition criteria must also be met before revenue is recognized:

- (a) *Sale of goods* – Revenue, net of rebates and trade discounts, is recognized when the risks and rewards of ownership of the goods have passed to the buyer. This is generally when the customer acknowledged delivery of goods.
- (b) *Sale of residential and condominium units [included under Real Estate (RE) Sales]* – For financial reporting purposes, revenues from transactions covering sales of residential and condominium units are recognized under the percentage-of-completion method. Under this method, realization of gross profit is recognized by reference to the stage of development of the properties (i.e., revenue is recognized in the period in which the work is performed). The unrealized gross profit on a year's sales is presented as Deferred Gross Profit on Real Estate Sales (under Cost of Goods Sold) in the consolidated statement of comprehensive income; the cumulative unrealized gross profit as of the end of the year is shown as Deferred Income on Real Estate Sales (under Other Current and Non-current Liabilities) in the consolidated statement of financial position.

The sale is recognized when a certain percentage of the total contract price has already been collected. If the transaction does not yet qualify as sale, the deposit method is applied until all conditions for recording the sale are met. Pending the recognition of sale, payments received from buyer are initially recorded Customers' Deposits and presented as part of Other Liabilities (current and non-current) in the consolidated statement of financial position.

Any adjustments relative to previous years' sales are recorded in the current year as they occur.

For tax reporting purposes, a modified basis of computing the taxable income for the year based on collections from real estate sales is used by the Group.

- (c) *Interest income on real estate sales* - considered in the determination of total revenue for real estate sales. It is recognized when interest accrues taking into account the underlying sale of real estate under installment method through in-house financing (not through externally financed home loans obtained by customers).
- (d) *Sale of undeveloped land and golf and resort shares (included under RE Sales)* – Revenues on sale of undeveloped land and golf and resort shares for sale are recognized using the full accrual method. Under the full accrual method, revenue is recognized when the risks and rewards of ownership have passed to the buyer and the amount of revenue can be measured reliably.
- (e) *Gaming revenues* – Revenue is recognized from net wins from gaming activities which represent the difference between coins and currencies deposited into the gaming machines and the payments to customers and, for other games, the difference between gaming wins and losses.
- (f) *Revenue from hotel operations* – Revenue from hotel operations is recognized when services are rendered. This is presented as part of the item Others under Revenue from Rendering of Services.
- (g) *Sales from Company-operated quick-service restaurants* – Revenue from restaurant sales operations are recognized when the services are rendered, that is, food and beverage products or promotional items purchased by customers have been delivered and accepted by the customers.
- (h) *Franchise revenues* – Revenue from franchised McDonald’s restaurants (including the restaurant operated by a joint venture) includes continuing rental, royalty and management fees. These are recognized in the period earned.
- (i) *Rentals* – Rental income is recognized on a straight-line basis over the duration of the lease terms. For tax purposes, rental income is recognized based on the contractual terms of the lease. Advance rentals and refundable rental deposits, if any, are recorded as deferred rental. Deferred rental, specifically the refundable rental deposit, is measured at amortized cost using the effective interest rate method.
- (j) *Interest* – Revenue is recognized as the interest accrues taking into account the effective yield on the asset.
- (k) *Dividends* – Revenue is recognized when the right to receive the payment is established.

Revenue and expenses are recognized excluding the amount of value-added tax (VAT).

The Group provides a membership card for its gaming patrons (i.e., of Travellers). Members earn points on gaming activity and such points are redeemable for complimentary goods and services such as rooms, food, beverages and others. Members may also earn special coupons or awards as determined during marketing promotions. The Group records revenue for the original transaction and a provision (and a corresponding recognition of promotional allowances in profit or loss) for the value of the points earned by members by reference to the relative fair values of the complimentary goods or services.

Cost and expenses (other than cost of real estate sales) are recognized in profit or loss upon utilization of the services or receipt of the goods or at the date they are incurred. All finance costs are reported in consolidated profit or loss on an accrual basis, except capitalized borrowing costs which are included as part of the cost of the related qualifying asset (see Note 2.16).

Costs of residential and condominium units sold before completion of the projects include the acquisition cost of the land, development costs incurred to date, applicable borrowing costs (see Note 2.16) and estimated costs to complete the project, determined based on estimates made by the project engineers (see Note 2.6).

2.16 Borrowing Costs

Borrowing costs are recognized as expenses in the period in which they are incurred, except to the extent that they are capitalized. Borrowing costs that are attributable to the acquisition, construction or production of a qualifying asset (i.e., an asset that takes a substantial period of time to get ready for its intended use or sale) are capitalized as part of the cost of such asset. The capitalization of borrowing costs commences when expenditures for the asset are being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalization ceases when substantially all such activities are complete.

2.17 Leases

The Group determines whether an arrangement is, or contains, a lease based on the substance of the arrangement. It makes an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset, as follows:

(a) Group as Lessee

Leases which transfer to the Group substantially all risks and benefits incidental to ownership of the leased item are classified as finance leases and are recognized as assets and liabilities in the consolidated statement of financial position at amounts equal to the fair value of the leased property at the inception of the lease or, if lower, at the present value of minimum lease payments. Lease payments are apportioned between the finance costs and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance costs are recognized in consolidated profit or loss. Capitalized leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.

Leases which do not transfer to the Group substantially all the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments (net of any incentive received from the lessor) are recognized as expense in consolidated profit or loss on a straight-line basis over the lease term. Associated costs, such as repairs and maintenance and insurance, are expensed as incurred.

(b) Group as Lessor

Leases wherein the Group substantially transfers to the lessee all risks and benefits incidental to ownership of the leased item are classified as finance leases and are presented as receivable at an amount equal to the Group's net investment in the lease. Finance income is recognized based on the pattern reflecting a constant periodic rate of return on the Group's net investment outstanding in respect of the finance lease.

Leases which do not transfer to the lessee substantially all the risks and benefits of ownership of the asset are classified as operating leases. Lease income from operating leases is recognized in consolidated profit or loss on a straight-line basis over the lease term.

2.18 Foreign Currency Transactions and Translation

(a) Transactions and Balances

Foreign currency transactions during the period are translated into the functional currency at exchange rates which approximate those prevailing on transaction dates.

Foreign currency gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the consolidated statement of comprehensive income.

(b) Translation of Financial Statements of Foreign Subsidiaries

The operating results and financial position of foreign subsidiaries (see Note 1) which are measured using the United States (U.S.) dollars, their functional currency, are translated to Philippine pesos, the Group's functional currency as follows:

- (i) Monetary assets and liabilities for each statement of financial position presented are translated at the closing rate at the end of the reporting period;
- (ii) Non-monetary assets and liabilities for each statement of financial position presented, which are measured in terms of historical cost, are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities which are measured at fair value are translated using the exchange rates at the date when the fair value was determined;

- (iii) Income and expenses for each profit or loss account are translated at the average exchange rates over the reporting period (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and,
- (iv) All resulting exchange differences are recognized in consolidated other comprehensive income and in a separate component of consolidated equity under Accumulated Translation Adjustments.

When a foreign operation is partially disposed of or sold, such exchange differences are recognized in the consolidated statement of comprehensive income as part of the gain or loss on sale.

The translation of the financial statements into Philippine peso should not be construed as a representation that the U.S. dollar amounts could be converted into Philippine peso amounts at the translation rates or at any other rates of exchange.

2.19 Impairment of Non-financial Assets

The Group's Investments in Associates and Joint Ventures, Intangible Assets, Investment Property, Property, Plant and Equipment and Other Non-financial assets are subject to impairment testing. Intangible assets with an indefinite useful life or those not yet available for use are tested for impairment at least annually. All other individual assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

Impairment loss is recognized for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amounts which is the higher of its fair value less costs to sell and its value in use.

All assets are subsequently reassessed for indications that an impairment loss previously recognized may no longer exist and the carrying amount of the asset is adjusted to the recoverable amount resulting in the reversal of the impairment loss.

2.20 Employee Benefits

The Group provides post-employment benefits to employees through a defined benefit plan, as well as a defined contribution plan. In addition, the Group also grants share options to key officers and employees eligible under stock option plans.

2.21 Income Taxes

Tax expense recognized in consolidated profit or loss comprises the sum of deferred tax and current tax not recognized in consolidated other comprehensive income or directly in equity, if any.

Current tax assets or liabilities comprise those claims from, or obligations to, fiscal authorities relating to the current or prior reporting period, that are uncollected or unpaid at the end of the reporting period. They are calculated using the tax rates and tax laws applicable to the fiscal periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or liabilities are recognized as a component of tax expense in consolidated profit or loss.

Deferred tax is accounted for using the liability method, on temporary differences at the end of the reporting period between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes.

Travellers is subject to 25% and 15% license fees, in lieu of all taxes, with reference to the income component of the gross gaming revenues as provided under its license. On May 7, 2014, Philippine Amusement and Gaming Corporation (PAGCOR) and its Entertainment City licensees, which include Travellers, agreed to reduce the license fees by 10% of gross gaming revenues effective April 1, 2014 (see Note 16.3).

2.22 Earnings per Share

Basic earnings per share (EPS) is computed by dividing net profit attributable to equity holders of the parent company by the weighted average number of shares issued and outstanding, adjusted retroactively for any stock dividend, stock split or reverse stock split declared during the current period.

Diluted EPS is computed by adjusting the weighted average number of ordinary shares outstanding to assume conversion of dilutive potential shares (e.g. vested share options – see Note 8).

2.23 Segment Reporting

There have been no changes from prior periods in the measurement methods used to determine reported segment profit or loss.

2.24 Related Party Transactions and Relationships

Related party transactions are transfers of resources, services or obligations between the Group and its related parties, regardless whether a price is charged.

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. These parties include: (a) individuals owning, directly or indirectly through one or more intermediaries, control or are controlled by, or under common control with the Company; (b) associates; (c) individuals owning, directly or indirectly, an interest in the voting power of the Company that gives them significant influence over the Group and close members of the family of any such individual and, (d) certain funded retirement plans, administered by trustee banks, of two significant subsidiaries.

In considering each possible related party relationship, attention is directed to the substance of the relationship and not merely on the legal form.

2.25 Events After the End of the Reporting Period

Any post-year-end event that provides additional information about the Group's consolidated financial position at the end of the reporting period (adjusting event) is reflected in the consolidated financial statements. Post-year-end events that are not adjusting events, if any, are disclosed when material to the consolidated financial statements (see Note 15).

3. USE OF JUDGMENT AND ESTIMATES

The preparation of the ICFS in accordance with PFRS requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Although these estimates are based on management's best knowledge of current events and actions, actual results may ultimately differ from those estimates. There were no changes in estimates of amounts reported in prior financial years that have a material effect in the current interim period.

4. SEGMENT INFORMATION

4.1 Business Segments

The Group is organized into five major business segments, namely Megaworld, Travellers, Emperador, GADC and GERI, which are the major subsidiaries of the Group, and that represent the main products and services provided by the Group and the line of business in which the Group operates (see Note 2.23). Presented below is the basis of the Group in reporting its primary segment information.

- (a) The *Megaworld* segment consists of development of real estate, integrated resorts, leasing of properties and hotel operations business which is primarily undertaken by Megaworld Corporation and subsidiaries.
- (b) The *Travellers* segment relates to tourism-oriented business that integrates entertainment, hospitality and leisure, including gaming, as that of Resorts World Manila, which is operated by Travellers International Hotel Group, Inc. and subsidiaries.
- (c) The *Emperador* segment refers to the manufacture and distribution of distilled spirits, including the production of glass containers, which is undertaken by Emperador Inc. and its subsidiaries.
- (d) The *GADC* segment refers to operations of McDonald's restaurants in the Philippines in accordance with the franchise agreement between Golden Arches Development Corporation and McDonald's Corporation, USA.
- (e) The *GERI* segment relates to development of integrated tourism estates, leisure-related properties and mixed used towers which is primarily undertaken by Global Estate Resorts, Inc. and subsidiaries.

4.2 Segment Assets and Liabilities

Segment assets are allocated based on their physical location and use or direct association with a specific segment and they include all operating assets used by a segment and consist principally of operating cash and cash equivalents, trade and other receivables, inventories, property, plant and equipment, intangible assets and investment property. Segment liabilities include all operating liabilities and consist principally of trade and other payables, interest-bearing loans and bonds payable.

4.3 Intersegment Transactions

Segment revenues, expenses and performance include sales and purchases between business segments. Such sales and purchases are eliminated in consolidation.

4.4 Analysis of Segment Information

Segment information can be analyzed as follows for three months ended March 31, 2014 and 2013.

	For the three months ended March 31, 2014 (Unaudited)					
	<u>Megaworld</u>	<u>Travellers</u>	<u>GADC</u>	<u>Emperador</u>	<u>GERI</u>	<u>Total</u>
REVENUES						
Sales to external customers	P 8,652,526,059	P 8,001,397,475	P 4,304,300,576	P 7,478,663,762	P 584,145,635	P 29,021,033,507

Unallocated corporate liabilities	<u>24,824,156,105</u>	<u>28,498,806,074</u>
Total liabilities reported in the interim consolidated statements of financial position	<u>P 139,174,171,953</u>	<u>P 142,178,763,894</u>

Concentration of revenue is considered when at least 10% of total segment revenue is generated from a single customer. There is no concentration of the Group's revenue in a single customer as the 10% threshold has not been met in any of the years presented.

5. PROPERTY AND EQUIPMENT

The gross carrying amounts and accumulated depreciation and amortization of property and equipment as of March 31, 2014 and December 31, 2013 are shown below.

	<u>March 31, 2014 (Unaudited)</u>	<u>December 31, 2013 (Audited)</u>
Cost	P 55,787,090,746	P 54,763,153,124
Accumulated depreciation	(13,790,013,868)	(13,101,348,398)
Net carrying amount	<u>P 41,997,076,878</u>	<u>P 41,661,804,726</u>

A reconciliation of the carrying amounts of property, plant and equipment at the beginning and end of the reporting periods is shown below.

	<u>March 31, 2014</u> <u>(Unaudited)</u>	<u>December 31, 2013</u> <u>(Audited)</u>
Balance at beginning of period net of accumulated depreciation	P 41,661,804,726	P 34,888,271,255
Property, plant and equipment of newly acquired subsidiary	9,224,063	63,000,110
Additions	1,061,917,764	10,554,881,085
Disposals	(47,204,205)	(336,260,664)
Reclassifications	-	(184,639,113)
Impairment loss – reversal	-	18,616,806
Depreciation charges for the period	(688,665,470)	(3,341,994,753)
Balance at end of period net of accumulated depreciation	<u>P 41,997,076,878</u>	<u>P 41,667,874,726</u>

6. INVESTMENT PROPERTY

The Group's investment property includes several parcels of land, building and improvements which are held for investment purposes only, either to earn rental income or for capital appreciation or both. The gross carrying amounts and accumulated depreciation of investment property at the beginning and end of the reporting periods are shown below.

	<u>March 31, 2014</u> <u>(Unaudited)</u>	<u>December 31, 2013</u> <u>(Audited)</u>
Cost	P 36,017,434,765	P 31,380,599,604
Accumulated depreciation	(4,363,121,895)	(4,090,171,166)
Net carrying amount	<u>P 31,654,312,870</u>	<u>P 27,290,428,438</u>

A reconciliation of the carrying amounts of investment property at the beginning and end of the reporting periods is shown below.

	<u>March 31, 2014</u> <u>(Unaudited)</u>	<u>December 31, 2013</u> <u>(Audited)</u>
Balance at beginning of period net of accumulated depreciation	P 27,290,428,438	P 18,751,335,670
Investment property of newly acquired subsidiary	3,424,863,968	5,020,588,055
Additions	1,218,137,001	3,696,859,574
Disposals	(6,165,808)	(3,873,468)
Reclassifications – net	-	695,129,708
Depreciation charges for the period	(272,950,729)	(869,611,101)
Balance at end of period net of accumulated depreciation	<u>P 31,654,312,870</u>	<u>P 27,290,428,438</u>

7. DIVIDENDS

There were no dividends declared and paid by the Company for the three months period ended March 31, 2014.

8. EARNINGS PER SHARE

Earnings per share is computed as follows:

	March 31, 2014 (Unaudited)	March 31, 2013 (Unaudited)
Basic:		
Net profit attributable to owners of the parent company	P 3,942,854,247	P 3,566,171,508
Divide by the weighted average number of outstanding common shares	<u>10,109,928,996</u>	<u>10,109,510,579</u>
	P <u>0.3900</u>	P <u>0.3528</u>
Diluted:		
Net profit attributable to owners of the parent company	P 3,942,854,247	P 3,566,171,508
Divide by the weighted average number of outstanding common shares	<u>10,155,705,560</u>	<u>10,133,550,063</u>
	P <u>0.3882</u>	P <u>0.3519</u>

As of March 31, 2014 and 2013, there are 24.0 million potentially dilutive shares from the Company's ESOP. However, such number of dilutive shares has no significant effect on the weighted average number of outstanding common shares and, consequently, has little effect on the 2014 and 2013 diluted EPS.

9. RELATED PARTY TRANSACTIONS

The Group's related parties include its stockholders, associates, jointly controlled entities, the Group's key management personnel and retirement fund, and others as described below. The summary of the Group's transactions with its related parties for the periods ended March 31, 2014 and 2013, and the related outstanding balances as of March 31, 2014 and December 31, 2013 are as follows:

Related Party Category	Notes	Amount of Transaction		Outstanding Balance	
		March 31, 2014 (Unaudited)	March 31, 2013 (Unaudited)	March 31, 2014 (Unaudited)	December 31, 2013 (Audited)
Subsidiaries'					
stockholders:

Other liabilities	9.11	11,989,406	45,714,180	173,882,074	161,969,303

9.1 Purchase of Goods

Prior to the acquisition of the distillery plant in 2013, Emperador sources its alcohol requirements from Consolidated Distillers, Inc. (Condis). Emperador imports raw materials such as alcohol, flavorings and other items through Andresons Global, Inc. (AGL). There are also finished goods purchased from Condis and through AGL. These transactions are payable within 30 days. The outstanding liability related to such purchases is presented as part of Trade Payables under current Trade and Other Payables in the consolidated statements of financial position.

9.2 Loan from MRO

GADC has a loan agreement with MRO. The principal amount of the loan of U.S.\$12.0 million is payable in full on March 17, 2025. Accrued interest payable as of March 31, 2014 and December 31, 2013 is included as part of Accrued Expenses under Trade and Other Payables account in the consolidated statements of financial position.

9.3 Acquisition of Assets

In 2013, GADC acquired building and leasehold improvements from McDonald's Philippines Realty Corporation (MPRC), with outstanding liability amounting to P197,055,943 and P196,597,811 as of March 31, 2014 and December 31, 2013, respectively.

Also in 2013, Emperador acquired the distillery facilities of Condis, which include property, plant and equipment and inventories amounting to P756,990,993 and P140,578,342, respectively. The acquisition was fully settled in cash in 2013.

9.4 Joint Co-operation Agreement with Genting Hongkong, Ltd. (GHL)

Travellers and GHL have a joint co-operation agreement whereby GHL handles the promotion of Travellers' casinos and will bring patrons to play in the casinos. As a consideration for such services, Travellers pays GHL an amount equivalent to a certain percentage of net turnovers.

Incidental rebate charges arising from this transaction are presented as part of General Marketing under the Other Operating Expenses account in the consolidated statements of comprehensive income. The outstanding balances of payables are presented as part of Trade Payables under the Trade and Other Payables account in the consolidated statements of financial position.

Travellers also recognized outstanding receivables from GHL representing show money received by GHL from foreign patrons which GHL will later remit to the Travellers. The outstanding balances of receivables are presented as part of Trade Receivables under Trade and Other Receivables in the consolidated statements of financial position.

9.5 Operations and Management Agreement with GHL

Some of Travellers' administrative functions are being handled by certain key officers and employees under the management of GHL as agreed by both parties under the Operations and Management Agreement. Management fees are presented as part of Management fees under the Other Operating Expenses account in the interim consolidated statements of comprehensive income. The outstanding liability arising from this transaction is presented as part of Accrued Expenses in the Trade and Other Payables account in the consolidated statements of financial position.

9.6 Advances to Associates and Other Related Parties

Entities within the Group grant to or obtain advances from associates and other entities for working capital purposes. These advances to and from associates and other related parties are unsecured, noninterest-bearing and repayable upon demand. Settlement is generally made in cash. The outstanding balances of Advances to Associates and Other Related Parties, which are shown as part of Investments in Associates and Other Related Parties account in the consolidated statements of financial position, and movement of the account are presented as follows (these mainly represent advances granted by Megaworld):

	March 31, 2014 (Unaudited)	December 31, 2013 (Audited)
Balance at beginning of year	P 2,713,925,501	P 1,869,121,228
Cash advances granted	315,211,253	903,799,948
Collections	<u>-</u>	<u>(58,995,675)</u>
Balance at end of year	<u>P 3,029,136,754</u>	<u>P 2,713,925,501</u>

As of March 31, 2014 and December 31, 2013, based on management's assessment, the outstanding balances of advances to associates and other related parties are not impaired; hence, no impairment losses were recognized.

9.7 *Receivable from a Joint Venture*

As of March 31, 2014, GCFII became a subsidiary of the GADC, accordingly, the amount of receivable was eliminated in the process of consolidation (see Note 1).

9.8 *Due from/to Related Parties*

Transactions with related parties include the following: financing of opening of letters of credit and payment of progress billing, royalty fees, rentals, interest and certain expenses in behalf of the entities within Group or other related parties. The amounts due from and to related parties are unsecured, noninterest-bearing and due and demandable any time. Settlement is generally made in cash. As of March 31, 2014 and December 31, 2013, based on management's assessment, the outstanding balances of advances to associates and other related parties are not impaired; hence, no impairment losses were recognized.

The details of the Due from/to Related Parties are presented under Trade and Other Receivables and Trade and Other Payables accounts, respectively, in the consolidated statements of financial position as follows:

	March 31, 2014 <u>(Unaudited)</u>	December 31, 2013 <u>(Audited)</u>
<i>Due from Related Parties</i>		
Balance at beginning of year	P 1,239,264,958	P 1,195,324,696
Additions	-	567,411,271
Collections	(180,457,080)	(524,057,941)
Balance at end of year	<u>P 1,058,807,878</u>	<u>P 1,239,264,958</u>
<i>Due to Related Parties</i>		
Balance at beginning of year	P 1,295,411,359	P 887,770,297
Additions	133,763,606	577,290,766
Repayments	(110,665,340)	169,649,704
Balance at end of year	<u>P 1,318,509,625</u>	<u>P 1,295,411,359</u>

9.9 *Non-current Advances from Related Parties*

Certain expenses of unconsolidated entities within the Group are paid by other related parties on behalf of the former. The advances are unsecured, non-interest bearing and generally payable on cash. Due to JV partners pertain to the share of JV partners in the proceeds from the sale in accordance with various JV agreements entered into by GERI. Total outstanding balance of the accounts is presented as Advances from Related Parties account in the consolidated statements of financial position.

Details of Advances from Related Parties are presented as follows:

	March 31, 2014 (Unaudited)	December 31, 2013 (Audited)
Advances from related parties	P 119,959,799	P 120,487,829
Advances from joint venture partners	<u>238,581,420</u>	<u>233,619,420</u>
	<u>P 358,541,219</u>	<u>P 354,107,249</u>

9.10 Redeemable Preferred Shares

This pertains to preferred shares issued by GADC in March 2005 to MRO.

9.11 Other Liabilities

In the normal course of business, Travellers obtains from certain related parties unsecured non-interest bearing, cash advances for working capital requirements and other purposes which is presented as part of Other Current liabilities.

9.12 Retirement Plans

The Group has a formal retirement plan established separately for each significant subsidiary, particularly Megaworld, GERI and GADC. The retirement fund neither provides any guarantee or surety for any obligation of the Group. The retirement fund also does not have any investments in the Group's shares of stock.

10. COMMITMENTS AND CONTINGENCIES

There are commitments, guarantees and contingent liabilities that arise in the normal course of operations of the Group with are not reflected in the accompanying interim consolidated financial statements. The management of the opinion that losses, if any, from these items will not have any material impact on the interim consolidated financial statements.

In addition, there are no material off-balance sheet transactions, arrangements, obligations and other relationships of the Group with unconsolidated entities or other persons created during the reporting period.

11. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group has various financial instruments such as cash and cash equivalents, financial assets at FVTPL, AFS financial assets, interest-bearing loans, bonds payable, trade receivables and payables and derivative asset and liabilities which arise directly from the Group's business operations. The financial debts were issued to raise funds for the Group's capital expenditures.

The Group does not actively engage in the trading of financial assets for speculative purposes.

The Group is exposed to a variety of financial risks in relation to financial instruments. The main types of risks are market risk, credit risk and liquidity risk.

11.1 Market Risk

(a) Foreign Currency Sensitivity

Most of the Group's transactions are carried out in Philippine pesos, its functional currency. The currency exchange risk arises from the U.S. dollar-denominated cash and cash equivalents, FVTPL, loans and bonds which have been used to fund new projects.

Foreign currency denominated financial assets and liabilities, translated into Philippine pesos at period-end closing rate are as follows:

	<u>March 31, 2014 (Unaudited)</u>		<u>December 31, 2013 (Audited)</u>	
	<u>U.S. Dollars</u>	<u>HK Dollars</u>	<u>U.S. Dollars</u>	<u>HK Dollars</u>
Financial assets	P 32,971,277,117	P 1,464,871,327	P 34,766,824,958	1,347,307,562
Financial liabilities	(65,327,286,616)	(569,067,102)	(59,074,985,969)	(642,724,055)
	<u>(P 32,356,009,499)</u>	<u>P 985,804,225</u>	<u>(P 24,308,161,011)</u>	<u>P 704,583,507</u>

The sensitivity of the consolidated income before tax for the period with regard to the Group's financial assets and the US dollar – Philippine peso exchange rate assumes +/- 20% and +/- 23% changes of the Philippine peso/U.S. dollar exchange rate for the three months ended March 31, 2014 and for the year ended December 31, 2013. The HK dollar – Philippine peso exchange rate assumes +/- 21% and +/- 20% change for the three months ended March 31, 2014 and for the year ended December 31, 2013. These percentages have been determined based on the average market volatility in exchange rates in the previous year and 12 months, respectively, estimated at 95% level of confidence. The sensitivity analysis is based on the Group's foreign currency financial instruments held at each reporting periods.

If the Philippine peso had strengthened (or weakened) against the U.S. dollar, with all other variables held constant, consolidated income before tax would have increased (or decreased) by P6.6 billion for the three-month period ended March 31, 2014 and billion and P5.5 billion for the year ended December 31, 2013. If in 2014 and 2013, the Philippine peso had strengthened (or weakened) against the HK dollar, with all other variables held constant, consolidated income before tax would have decreased (or increased) by P0.2 billion and P0.1 billion, respectively.

The Group periodically reviews the trend of the foreign exchange rates and, as a practical move, increases its U.S. dollar-denominated time deposits in times when the Philippine peso is depreciating or decreases its U.S. dollar-denominated placements in times when the Philippine peso is appreciating.

Exposures to foreign exchange rates vary during the period depending on the volume of overseas transactions. Nonetheless, the analysis above is considered to be representative of the Group's currency risk.

(b) Interest Rate Sensitivity

The Group interest risk management policy is to minimize interest rate cash flow risk exposures to changes in interest rates. At present, the Group is exposed to changes in market interest rates through bank borrowings and cash and cash equivalents, which are subject to variable interest rates. The Group maintains a debt portfolio unit of both fixed and variable interest rates. All other financial assets are subject to variable interest rates.

The sensitivity of the consolidated income before tax for the period to a reasonably possible change in interest rates of +/- 2.55% for Philippine peso and +/- 0.23% and U.S. dollar in 2014 and +/-1.44% for Philippine peso and +/-0.14% for US dollar in 2013 with effect from the beginning of the period. These percentages have been determined based on the average market volatility in interest rates, using standard deviation, in the previous year and 12 months, respectively, estimated at 95% level of confidence.

The sensitivity analysis is based on the Group's financial instruments held at March 31, 2014 and December 31, 2013, with effect estimated from the beginning of the period. All other variables held constant, the consolidated income before tax would have increased by P0.3 billion for the three-month period ended March 31, 2014 and P0.4 billion for the year ended December 31, 2013. Conversely, if the interest rates decreased by the same percentage, consolidated income before tax would have been lower by the same amount.

11.2 Credit Risk

Generally, the Group's credit risk is attributable to trade and other receivable arising mainly from transactions with approved franchisees, installment receivables, rental receivables and other financial assets.

The Group maintains defined credit policies and continuously monitors defaults of customers and other counterparties, identified either individually or by group, and incorporate this information into its credit risk controls. Where available at a reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. Franchisees are subject to stringent financial, credit and legal verification process. In addition, accounts receivable are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant. The Group's policy is to deal only with creditworthy counterparties. In addition, for a significant portion of sales, advance payments are received to mitigate credit risk.

With respect to credit risk arising from the other financial assets of the Group, composed of cash and cash equivalents, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

Trade and other receivables that are past due but not impaired are as follows:

	March 13, 2014 (Unaudited)	December 31, 2013 (Audited)
Not more than 30 days	P 7,092,052,188	P 549,092,678
31 to 60 days	1,006,489,473	2,289,013,027
Over 60 days	2,425,695,365	747,543,582
	<u>P 10,524,237,026</u>	<u>P 3,585,649,287</u>

11.3 Liquidity Risk

The Group manages its liquidity needs by carefully monitoring scheduled debt servicing payments for long-term financial liabilities as well as cash outflows due in a day-to-day business. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on the basis of a rolling 30-day projection. Long-term liquidity needs for a 6-month and one-year period are identified monthly. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of loans, bonds, and preferred shares.

The Group maintains cash to meet its liquidity requirements for up to 60-day periods. Excess cash are invested in time deposits, mutual funds or short-term marketable securities. Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities and the ability to sell long-term financial assets. In addition, the Group regularly evaluates its projected and actual cash flows. It also continuously assesses conditions in the financial markets for opportunities to pursue fund raising activities, in case any requirements arise. Fund raising activities may include bank loans and capital market issues.

As at March 31, 2014, the Group's financial liabilities have contractual maturities which are presented below.

	<u>Current</u>		<u>Non-current</u>	
	<u>Within 6 Months</u>	<u>6 to 12 Months</u>	<u>1 to 5 Years</u>	<u>Later than 5 Years</u>
Trade and other payables	P 13,143,053,351	P 6,585,951,198	P 16,884,396,414	P 1,401,622,714
Interest-bearing loans	6,929,229,255	764,949,545	2,002,400,591	-
Bonds payable	-	-	13,903,058,417	11,047,341,866
Advances from related parties	980,872,653	-	358,541,219	-
Redeemable preferred shares	-	-	390,479,444	2,615,270,134
Security deposits	-	-	86,286,060	61,932,286
Derivative liability	-	-	-	1,171,079,105
Other liabilities	<u>51,582,965</u>	<u>10,683,217</u>	<u>193,584,383</u>	<u>99,803,050</u>
	<u>P 21,104,738,224</u>	<u>P 7,361,583,960</u>	<u>P 33,818,746,528</u>	<u>P 16,397,049,155</u>

As at December 31, 2013, the Group's financial liabilities have contractual maturities which are presented below.

	Current		Non-current	
	Within 6 Months	6 to 12 Months	1 to 5 Years	Later than 5 Years
Trade and other payables	P 15,356,683,282	P 7,826,578,063	P -	P -
Interest-bearing loans	1,603,279,826	2,192,512,443	8,795,031,294	433,552,898
Bonds payable	1,181,347,400	1,181,347,400	55,449,496,930	7,625,297,602
Advances from related parties	-	-	354,107,249	-
Redeemable preferred shares	-	-	1,352,336,993	1,574,159,348
Security deposits	-	-	86,286,060	61,932,286
Derivative liability	38,631,143	-	-	1,145,961,938
Other liabilities	519,684,000	-	-	-
	<u>P 18,699,625,651</u>	<u>P 11,200,437,906</u>	<u>P 66,037,258,526</u>	<u>P 10,840,904,072</u>

The contractual maturities reflect the gross cash flows, which may differ from the carrying values of the liabilities at the end of the reporting period.

11.4 Other Price Risk Sensitivity

The Group's market price risk arises from its investments carried at fair value (financial assets classified as AFS financial assets). It manages its risk arising from changes in market price by monitoring the changes in the market price of the investments.

For equity securities listed in the Philippines, the observed volatility rates of the fair values of the Group's investments held at fair value and their impact on the equity as of March 31, 2014 and December 31, 2013 are summarized as follows:

	Observed Volatility Rates		Impact on Equity	
	Increase	Decrease	Increase	Decrease
2014 - Investment in equity securities	+17.75%	-17.75%	<u>P 48,299,589</u>	<u>(P 48,299,589)</u>
2013 - Investment in equity securities	+18.12%	-18.12%	<u>P 480,595,059</u>	<u>(P 480,595,059)</u>

The maximum additional estimated loss in 2014 and 2013 is to the extent of the carrying value of the securities held as of these reporting dates with all other variables held constant. The estimated change in quoted market price is computed based on volatility of listed companies at the PSE for the past 3 months in 2014 and 12 months in 2013 at 95% confidence level.

The investments in listed equity securities are considered long-term strategic investments. In accordance with the Group's policies, no specific hedging activities are undertaken in relation to these investments. The investments are continuously monitored and voting rights arising from these equity instruments are utilized in the Group's favor.

12. CATEGORIES OF FINANCIAL ASSETS AND LIABILITIES

See Notes 2.4 and 2.12 for a description of the accounting policies for each category of financial instrument.

13. FAIR VALUE MEASUREMENT AND DISCLOSURES

13.1 Fair Value Hierarchy

The hierarchy groups financial assets and liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial assets and liabilities. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets or for identical assets or liabilities;

- Level 2: inputs other than quoted prices included within Level 1 that are observable for the resource or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the financial asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

For purposes of determining the market value of Level 1, a market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing services, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

13.2 Fair Instruments Measured at Fair Value

The table below shows the fair value hierarchy of the Group's classes of financial assets and financial liabilities measured at fair value in the consolidated statements of financial position on a recurring basis as of March 31, 2014 and December 31, 2013.

For financial assets and financial liabilities with fair values included in Level 1, management considers that the carrying amounts of those short-term financial instruments approximate their fair values.

The fair values of the financial assets and financial liabilities included in Level 2 and Level 3 above which are not traded in an active market is determined by using generally acceptable pricing models and valuation techniques or by reference to the current market value of another instrument which is substantially the same after taking into account the related credit risk of counterparties, or is calculated based on the expected cash flows of the underlying net asset base of the instrument.

When the Group uses valuation technique, it maximizes the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to determine the fair value of an instrument are observable, the instrument is included in Level 2. Otherwise, it is included in Level 3.

13.4 Investment Property Measured at Cost for which Fair Value is Disclosed

As at December 31, 2013, the fair value of the Group's investment property amounting to P123.6 billion is classified within Level 3 of the fair value hierarchy. The Level 3 fair value of the investment property was determined using the income approach which is performed with values derived using a discounted cash flow model. Also, there were no transfers into or out of Level 3 fair value hierarchy. There was no valuation update made for the current period.

14. CAPITAL MANAGEMENT OBJECTIVES, POLICIES AND PROCEDURES

The Group's capital management objective is to ensure its ability to continue as a going concern; to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk; and to maintain strong and healthy financial position to support its current business operations and drive its expansion and growth in the future.

There were no changes in the Group's approach to capital management during the period.

	March 31, 2014 (Unaudited)	December 31, 2013 (Audited)
Total liabilities	P 139,174,171,953	P 142,178,763,894
Equity attributable to owners of the parent company	<u>111,579,824,143</u>	<u>107,692,727,038</u>
Debt-to-equity ratio	<u>P 1.25:1</u>	<u>P 1.32:1</u>

15. SEASONAL FLUCTUATIONS

For Travellers, casino operations tend to experience seasonality in visitations during public holidays, festivals in the Philippines and around South East Asian region.

There were no seasonal aspects that had a material effect on the financial condition or results of operations of the Group.

16. SUBSEQUENT EVENTS

16.1 Sale of AGI's GERI Shares to Megaworld

On May 8, 2014, the Company has agreed to sell to Megaworld all its direct stake in GERI for a total price of P10.43 billion, or a price of P1.93 per share which is based on the 30-day volume weighted average price (VWAP) of GERI shares as of April 30, 2014. The acquisition will consolidate under Megaworld all the real estate businesses of the Group, which will enable the Group to capture the growth in tourism sector through GERI's projects.

16.2 Issuance of Megaworld's Additional Stock Options

On April 11, 2014, Megaworld has issued additional stock options to its employees giving them the right to subscribe to an aggregate of 20.0 million common shares of the Megaworld at an exercise price of P2.9558 per share. The options shall generally vest on the 60th birthday of the employee and may be exercised until the date of his retirement from Megaworld.

16.3 Tax Contingencies of Travellers' Casino Operations

Recognizing that Article IV, Section 20 of the Provisional Licenses expressly provides that the license fees paid to PAGCOR are "in lieu of all taxes," PAGCOR and the Entertainment City licensees (with includes Travellers) have entered into an agreement dated May 7, 2014 to reduce the license fees commencing April 1, 2014 by ten percent (10%) of gross gaming revenues. This adjustment will address RMC 33-2013 dated April 17, 2013 which imposes income tax on the Entertainment City licensees. The 10% license fee adjustment is a temporary measure to address the unilateral BIR action and is not intended to modify, amend or revise the Provisional License/s. For taxable periods prior to April 1, 2014, PAGCOR and the Licensees agreed to mutually cooperate to, and in good faith, carry out and accomplish the commercial objectives of the Provisional License/s, specifically Article IV, Section 20 thereof, insofar as the license fees paid to PAGCOR are in lieu of all taxes with reference to the income component of the gross gaming revenues, through equitable arrangements acceptable to the parties.

16.4 Agreement between EMP and United Spirits

On May 9, 2014, the Group signed an agreement with United Spirits (Great Britain) Ltd., a wholly owned subsidiary of United Spirits Ltd. (USL) of India, to acquire the Whyte & Mackay whiskey business for an enterprise value of £430.0 million and subject to India's and Britain's regulatory approvals as well as USL's shareholders' approval. The principal activities of Whyte and Mackay and its subsidiaries are the production, marketing and distribution of Scotch whiskey and other alcoholic drinks. It has a global distribution network in over 50 countries.

The acquisition will put the Group in two fastest growing spirits segments in the world, the brandy and whiskey (the Scotch whiskey).
