IV. ANNUAL REPORT OF MANAGEMENT

The Presiding Officer then turned the floor over to the Chairman, Dr. Andrew L. Tan, who delivered the Chairman's Message as follows:

Dear Stakeholders,

The year 2022 was a period of extraordinary achievements for your company as Alliance Global Group, Inc. (AGI) further solidified its strong position among the country's fastest-growing conglomerates with its diversified portfolio spanning real estate, tourism, gaming, spirits and quick service restaurants. Supported by much-improved mobility with the continued reopening of the economy during the year, AGI successfully recorded sharp increases in performance across all its business segments, most of which even exceeded pre-pandemic levels.

AGI ended 2022 with consolidated revenues of PHP 183.6 billion, surpassing the 2019 level of PHP 180.0 billion. Income before minority interest grew by 6% year on year to PHP 25.2 billion, while attributable net profit stood at PHP 16.1 billion. This was achieved as the Group demonstrated agility in adapting to fast-changing market trends, creativity in coming up with exciting marketing strategies across all our business segments, and strong determination in pursuing our goals. We have also continuously

improved our project execution, as well as the delivery of our products and services, aided by our ongoing digital transformation, which paved the way for enhanced client engagement and more streamlined processes and reporting.

This adaptability was demonstrated most by Megaworld, which continued to be proactive in meeting its customers' needs, successfully leading to several new accounts and potential markets opening up. This is especially true for its Megaworld Premier Offices, which remains the country's biggest office landlord, recording average occupancy that is above industry experience. Megaworld Lifestyle Malls and Megaworld Hotels also recovered sharply during the year, supported by their aggressive and creative marketing strategies. Not to be outdone, Megaworld's residential segment exceeded its targets for the year, recording PHP 119 billion in reservation sales while launching PHP 45 billion worth of projects.

Megaworld also proudly launched two new townships during the year—the 340-hectare integrated lifestyle community Sherwood Hills, located in Trece Martires in Cavite, and the 3-hectare Winford Resorts Estate in Manila. These launches brought to 30 its total number of townships throughout the country covering over 5,100 hectares of land, and should help sustain its development projects moving forward.

Emperador made history as the first listed company under the Philippine Stock Exchange, Inc. to have a dual listing on the Singapore Exchange Securities Trading Limited (SGX-ST). It is also the first Philippine company to be a constituent in the Straits Times Index (STI), the benchmark index of the SGX.

During the year, Emperador's brandy and whisky business segments posted record sales as they continued to perform strongly across all markets. Emperador, which is present in over 100 countries all over the world, is intensifying its global reach, particularly in Asia and North America, to serve the growing spirits demand with its diversified portfolio in the years ahead.

Travellers International, with a vibrant vision of making Newport World Resorts a cutting-edge integrated casino, hotel, and entertainment complex in the country, achieved record gross revenues and an eight-year high in EBITDA in 2022. Its remarkable performance was boosted by the continued improvement in gross gaming revenues and the recovery in non-gaming revenues.

It honed in on the opportunity of the surging demand for staycations and meetings, incentives, conferences and exhibitions (MICE) activities, which boosted its hotel occupancy rates and revenues. Travellers aims to grow its casino business further by expanding its premium mass segment, sustaining the growth in VIP business, and improving foot traffic at the Newport World Resorts complex.

Golden Arches experienced remarkable growth in systemwide sales, expanding its market presence and solidifying its position as a market leader in the Philippines with 704 stores nationwide. The company also showcased its commitment to innovation resulting in the launch of new, innovative offerings that met its target audience's evolving needs and preferences.

Being a premium-lifestyle conglomerate also means being a leader in sustainability. AGI continued to focus on people, the planet, and prosperity in delivering its sustainability goals. With our approach towards environmental responsibility, people transformation, impactful growth, and good governance, we support all 17 United Nations Sustainable Development Goals. AGI aims to build communities and spaces that enable people to live full lives today and in the future. With our holistic approach to growing our businesses and respecting the environment, we are geared towards a future full of hope and optimism.

The growth and success of AGI would not be possible without our stakeholders' continuing trust and support. We are committed to remaining dynamic and progressive in the face of change, making premium products, services, and experiences accessible to a wide audience, and moving forward with the strength and vision that will transform every challenge into opportunity in the years to come.

After the Chairman's Message, the Presiding Officer presented his pre-recorded report on the performance of the Corporation in 2022.

V. OPEN FORUM

The Presiding Officer requested the Investor Relations Officer, Ms. Caroline Kabigting, to read some of the questions received and the names of the stockholders who sent them. Below is a summary of the questions and the answers that were given:

Q (Monica Chavez): Congratulations on delivering good financial and operating results in 2022 despite the various economic challenges during the period. My questions are: (1) Do you expect to raise your dividend payout on the back of these good results? (2) Will you continue to implement your share buyback program now that the current allocation is close to being fully utilized?

A (Presiding Officer): Thank you for that question. Please be assured that it is the intention of your company to further improve AGI's cash dividend payments to shareholders alongside the sustained growth in our various business segments.

We also believe that our stock is largely undervalued, and for this reason we have implemented a share repurchase program which is still ongoing.

We take note of your questions and we will raise this to the Board.

Q (Clarissa Dela Cruz): Is AGI's performance being affected by the weakening Philippine peso and higher interest rates?

A (Presiding Officer): Thank you for that question. Admittedly, last year's peso depreciation has affected our group performance, particularly in the case of Megaworld which recorded some unrealized foreign exchange losses. Although these are non-cash items, they cut on our profitability. We have, however, been reducing our foreign exchange exposure in Megaworld, to minimize the impact of the foreign currency volatility on its operations.

As for the effect of rising interest rates on our earnings, this has less impact on our profitability given that only about 20% of our Group's borrowings are based on floating interest rates. The bulk, or 80%, is based on fixed rates.

Q (Angel Vinasoy): A lot of companies now, especially the BPOs, are offering Work From Home arrangements to their employees. Do you see this as a challenge to your office business?

A (Presiding Officer): The Work From Home set up affects maybe about 30% of the workforce of our BPO tenants. In our view, a bigger share of our BPO tenants would still require full time employees to work at the office

given issues primarily on data privacy and productivity.

In fact, we saw more demand for office spaces coming from the IT-BPM, financial institutions and health care sectors, with the latter growing significantly and providing more jobs to our nurses and other healthcare practitioners.

Our office segment still achieved a 90% occupancy rate, much higher than the industry experience.

Q (Famella Mae Cervantes): Emperador has seen record revenue (topline) growth, driven by both its whisky and brandy segments. Do you have plans to expand to other spirits categories, purchase new liquor companies or add spirits brands to your portfolio?

A (President): Thank you for that question. As you know, we have successfully marketed and grown the sales of our premium single malt brands – the Dalmore, Tamnavulin, Jura and Fettercairn – to the rest of the globe, particularly in Asia and North America. As such, in order to sustain its significant growth pace, Emperador is allocating P6bn of its P7bn capex for this year to expand and upgrade its whisky facilities and infrastructure in Scotland.

As for its other expansion plans, we are always on the lookout for opportunities to further grow the business and will pursue them when they make economic sense.

Q (Shyla Angela Cervantes): McDonalds Philippines is reportedly adding 50 new stores this year as part of its growth strategy. Do you think there is still room for more store expansions in the fast-food market given that it is already quite saturated?

A (Presiding Officer): Well thank you for that good question. Golden Arches has resumed its aggressive expansion plans to launch 50 new stores this year -- and has allocated P4bn in capex for this -- because it believes there exists enormous growth opportunities throughout the country. Most of its new store launches are now outside of Metro Manila, especially in the Luzon provinces, which have seen significant progress as the government and the private sector have made further inroads in countryside infrastructure development. So yes, there is still room for more store expansions for McDonalds Philippines because we expect our economy to continue to grow.

Q (Edralyn Sarmiento): How do you intend to sustain the strong earnings recovery of Travellers International? Also, do you think there are opportunities for your gaming business to expand outside of Metro Manila?

A (Presiding Officer): Thank you for that question. Travellers International posted a turnaround with a net profit of P1.1bn in 2022 as its gross gaming revenues hit a new record level while its non-gaming revenues (driven by its hotel operations) continued to recover. We intend to sustain this strong growth trajectory as we, first and foremost, target to bring the share of our premium mass segment to 50% of its gross gaming revenues; and secondly, as we continue to expand its VIP/junket operations which in 2022 already saw its revenues hit 175% of pre-pandemic levels. Travellers has also kept its costs at more manageable levels, as such, it can achieve cost efficiencies as we continue to grow the topline.

As for expansion outside Metro Manila, we are actively looking at

Q (Marian Domingo):

some of the key tourism hubs all over the Philippines as potential expansion sites for our integrated resorts business.

Do you expect the hospitality industry to recover in 2023? What do you see as the key growth drivers of the hospitality industry this year, and how will AGI incorporate those drivers into its plans?

A (Presiding Officer):

Thank you for that very good question. Actually, the revenues from both our hotel operations under Megaworld and Travellers have significantly exceeded their pre-pandemic levels. We believe we can sustain this on the back of the pent-up demand for travel and the surge in discretionary spending for leisure. This is supported by the further improvement in infrastructure all over the country. AGI believes in the enormous opportunities in the hospitality sector. We have in our project pipeline the plan to bring our group's capacity to over 10,000 hotel room keys within the next five years from our current levels of about 7,500 keys. We have also been developing new townships intended as tourism estates like Paragua Coast Town in Palawan, and our Lakeside development in Hamptons Caliraya, in addition to Boracay New Coast in Aklan and Twin Lakes in Tagaytay.

As you can see, we are betting big on the tourism sector being the next growth driver for the Philippines.
